Statement of Support for HB319

The AMIA is pleased to state its support for HB319, it is merely common sense that the yearly re-checking of fingerprints is a burden on the already strained resources of the Department of Public Safety, the already stretched resources of the applicants of the process and a drain on everyone's time. The language changes to ease this requirement into a reasonable time frame is a welcome addition to an important requirement to ensure the safety of the public. The Alaska Marijuana Industry Association is fully supportive of the introduction of this language by Representative Josephson and hope this is adopted.

Respectfully Submitted on behalf of the AMIA Board,

A handwritten signature in black ink that reads "Carroll Carrigan". The signature is fluid and cursive, with "Carroll" on top and "Carrigan" on the bottom, connected by a loop.

Carroll Carrigan
Executive Director
Alaska Marijuana Industry Association
