FISCAL NOTE ANALYSIS

STATE OF ALASKA
2025 LEGISLATIVE SESSION

BILL NO. HB140

Analysis

This legislation would create a new state department. The existing Division of Agriculture would be repositioned from the Department of Natural Resources (DNR) to become the new Department of Agriculture. The statutory responsibilities and authorities of the Division of Agriculture would not change; the bill makes changes to reflect the repositioning.

The commissioner of DNR will need to consult with the commissioner of the Department of Agriculture versus the Board of Agriculture and Conservation on the disposal or sale of land for agricultural purposes.

This legislation also renames the Natural Resource Conservation and Development Board to the Soil and Water Conservation and Development Board. The commissioner of the Department of Agriculture serves as ex officio to the board and appoints the executive director of the board. The board's responsibilities and current composition do not change.

As the Division of Agriculture's budget would transfer from DNR to the new department, DNR's budget would be reduced by that amount. This note reflects the changes to Northern Latitude Plant Materials Center allocation within the Division of Agriculture.

(The transition of funds associated with the Agricultural Development allocation to the new Department of Agriculture are reflected in a separate fiscal note.)

Additional fund sources and additional revenue to that shown on page one are as follows:

Additional Operating Funds Sources					
RDU	Fund			FY2026 Governor Scenario	
	Plant Materials Center				
	Capital Improvement Projects 1061			\$	0.30
	Statutory Designated Program Receipts 1108			\$	58.20
				\$	58.50
					Total
