Bering Strait Transits 2008-2016

Bering Strait Transits

Goals of the Alaska Arctic Policy Commission:

DEVELOP AN ARCTIC POLICY FOR THE
STATE
CREATE AN IMPLEMENTATION PLAN FOR
THAT POLICY

For 2 years

**The Commission convened public meetings
around the state**

COMMISSION'S FINAL REPORT TO THE ALASKA STATE LEGISLATURE

Final Report

of the Alaska Arctic Policy Commission

January 30, 2015

Implementation Plan for Alaska's Arctic Policy

January 30, 2015

Alaska's Arctic Policy

AS 44.99.105

(a)(2) collaborate with all levels of government, tribes, industry, and nongovernmental organizations to achieve transparent and inclusive Arctic decision-making, including efforts to

(A) strengthen and expand cross-border relationships and international cooperation, especially bilateral engagements with Canada and Russia;

Alaska's Arctic Policy

AS 44.99.105

(a)(3) enhance the security of the Arctic region of the state and, thereby, the security of the entire state, including efforts to

(A) enhance disaster and emergency prevention and response, oil spill prevention and response, and search and rescue capabilities in the region;

(B) provide safe, secure, and reliable maritime transportation in the areas of the state adjacent to the Arctic;

Alaska's Arctic Policy

AS 44.99.105

(b) It is important to the state, as it relates to the Arctic, **to support the strategic recommendations of the implementation plan** developed by the Alaska Arctic Policy Commission and to encourage consideration of recommendations developed by the Alaska Arctic Policy Commission. Priority lines of effort for the Arctic policy of the state include

(1) promoting economic and resource development;

(2) addressing the infrastructure and response capacity gap in order to support the Arctic region;

(3) supporting healthy communities; and

(4) supporting existing and fostering new science and research that aligns with state priorities for the Arctic.

Arctic Policy Implementation Plan

FOUR LINES OF EFFORT

Economic and Resource Development

Response Capacity

Healthy Communities

Science and Research
