FISCAL NOTE ANALYSIS

STATE OF ALASKA
2024 LEGISLATIVE SESSION

BILL NO. SB149

Analysis

This bill mandates the Division of Public Assistance to execute Broad-Based Categorical Eligibility within the Supplemental Nutrition Assistance Program (SNAP). The Division of Public Assistance will still need to assess a household's size, income, compliance with work requirements, and other applicable eligibility requirements to determine eligibility for SNAP benefits. Households must complete a SNAP application, have an interview, provide financial documents, report changes, and reapply regularly, just like all other SNAP households.

To effectuate this change, the division will need to enact policy amendments, revising the SNAP state plan and regulations. Furthermore, it necessitates modifications within databases, the implementation of quality oversight measures, and the provision of staff training.

The division estimates this transition will require the allocation of one full time position for policy and training within the Field Services component (costs reflected in accompanying fiscal note) and an additional full time position specifically for oversight and quality control within the Quality Control component (costs reflected in this fiscal note).

Costs related to this fiscal note include:

Personal Service: Eligibility Quality Control Technician 2, range 18, step D in Anchorage \$123.6

Core Services: \$14.0

Commodities: \$4.0 initial year and \$1.0 for following years
