---

Senators,

Would you please pass House Bill 104, we in the timber industry desperately need you to do this. In the year 2023 I supplied value added wood products to 89 Alaska businesses. Company names that I supply, The Great Alaskan Bowl Company, The Ulu Factory, and Spenard Builders Supply. I will not waste your time listing the other 86 business names I supply product to. I own and run one of the only kiln drying operations in the State of Alaska. Your timber industry desperately needs you to pass house bill 104 please do so. Feel free to contact me with any questions or concerns you have.
