

**A M E N D M E N T**

OFFERED IN THE SENATE

BY SENATOR DUNBAR

TO: CSSB 257(L&C), Draft Version "H"

1 Page 7, line 31, through page 8, line 3:

2 Delete all material and insert:

3                             "(1) provide for oversight of the transmission organization by a  
4 management committee that is made up of

5                             (A) representatives from each of the Railbelt utilities;  
6                             (B) the executive director of the authority;  
7                             (C) the chief executive officer of the applicable electric  
8                             reliability organization, or the chief executive officer's designee;  
9                             (D) an individual who represents a person, other than a public  
10                             utility, that owns or operates a facility for the generation of electricity; and  
11                             (E) an individual who represents a labor organization engaged  
12                             in collective bargaining with a Railbelt utility;"
