Subject: SB61
Date: Thursday, April 03, 2025 9:15:57 AM

Good morning!

My name is Travis Kassaiuli and I live in Emmonak, originally from Newtok AK. I support SB61 because the level of E-Waste in Alaska is too much, and it costs too much for local communities to get them taken care of themselves. Not very many communities have the Equipment or the tools to take care of E-Waste, and if they had the tools or equipment, they would have to jump through loops upon loops upon loops on top of the cost, to get the E-Waste out of the rural communities.

Quyana. (Thank you)
