## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2018 LEGISLATIVE SESSION

BILL NO. HB 27

### Analysis

HB 27 would add new sections to AS 18.31 related to chemicals of high concern for childhood exposure. The bill would require the Department of Environmental Conservation to consult with the Department of Health and Social Services and publish a list by January 1, 2019 of chemicals of high concern to which children are at high risk of potential exposure. Sec. 2 of the bill would establish the requirements to be met before a chemical is listed. Through proposed AS 18.31.640, the bill would prohibit a person in the state from manufacturing, selling, offering for sale, or distributing in the state a consumer product that contains certain chemicals that inhibit flame production. Sec. 2 of the bill would make a violation of AS 18.31.640 an unfair or deceptive practice under AS 45.50.471, which would allow the Department of Law's Commercial and Fair Business & Child Support Section to commence an investigation under AS 45.50.

Should HB 27 become law, the department expects a limited increase in work, but expects it could be absorbed into existing resources.
