

## **Senate Bill 54: EXTEND AELS BOARD; REG INT. DESIGNERS**

S(FIN) Friday, April 11, 2025

### **Version G Amendments Explanation**

**G.1:** In Version G, Sections 33-38 were conforming changes under other titles. These sections added both landscape architects and registered interior designers and their respective professions under Workers' Comp, Property, Public Buildings, and Public Contracts. Legislative Legal identified five other sections of statute that needed updated but were not encompassed in the bill draft G. This amendment adds those.

**G.5:** This amendment and its accompanying legal memo clarify and confirm the following:

- The AELS Board shall define interior design for the purposes of this chapter;
- A person may practice interior design without registering with the Board while not using the title "registered interior designer" (Title Act);
- The Board shall determine by regulation the type of documents that a registered interior designer is authorized to sign and stamp for construction projects.

Furthermore, the definition of registered interior designer is updated to mirror this language.
