HB 21 Summary of Changes Version A to N

Page 1 line 13, replaces the language in Subsection C with new language.

The new Subsection C language adds requirements for the Division of Elections to confirm the address of a preregistered voter before sending them a voter registration card. Specifically, it requires the division to mail a notice to a preregistered voter 90 days before their 18th birthday requesting an address confirmation. If the card is returned the division must register that person to vote and send them a voter registration card.
