

April 21, 2017

The Honorable Anna MacKinnon  
Alaska State Senate  
State Capitol, Room 516  
Juneau, AK 99801

Dear Senator Mackinnon,

This letter serves as confirmation that TelAlaska's network is capable of delivering 25/3Mbps service to each of our 27 service areas as is proposed in SB 102. A complete list of the communities we serve is provided below.

TelAlaska is in full support of legislation to bring improved broadband services to rural Alaska. We believe that the educational opportunities available to our students through technology are limitless and we appreciate the legislature's efforts in improving services and infrastructure for schools across the state.

Sincerely,

Dave Goggins  
President and General Manager  
dgoggins@telalaska.com
