---

Hello, I am the parent of an inmate at FCC. I am also the new Reentry Coalition Coordinator in Fairbanks. Today I am addressing this issue as the parent of an adult child who was a Senior Social work student who decided to go off his medication for bipolar disorder. For the last year he has been arrested, admitted briefly to the hospital.... lost everything and now incarcerated awaiting trial. It serves no one for the best mental health care to be in jail. Please allow restoration for our prisoners and develop the wrap around services to address the unique needs of our prison population to access reentry wrap around services in our communities. Thank you, Linda Setterberg 907-378-5859

109 Kniffen Road  
Fairbanks, AK 99712
