All—

Please repeal SB91. Since it was implemented, my neighbors and I have seen petty crime explode in the Anchorage area. Car break-ins used to be rare occurrences; they're now frequent. People's yards are entered and items are stolen regularly. The police are less responsive to these now-pervasive property crimes.

We know this trend started with the implementation of SB91 and don't need or want to be told by politicians that there's really no upswing in crime or that SB91 isn't to blame. It's pretty clear cause and effect to us.

Life was better in Anchorage before SB91 was instituted. Please repeal this legislation!

Sincerely,
