My name is Audrey Ward and I have lived here since 1959. My family and friends have all suffered emotionally and definitely financially from theft and damaging property. Even when I catch tweakers on my property and it is videotaped the cops may take the tweaker to jail but your system n laws let them right back out. Then they don't show for court or walk out of your half way houses or rehab n us victims worry again about how to spend more money we don't have to keep thieves and tweakers away from our families stuff. We're paying the price when tweakers take our stuff. I wasn't born rich. It took me years to pay for my snowmachines and in one evening tweakers cut through nine padlocks and stole all my stuff worth over \$20 k. Please help get tougher laws for car thieves and tweakers stealing our stuff that we work very hard for. My insurance has increased due to tweakers n putting in a claim. Only the jailbird tweakers are winning. And why not cuz they have nothing to lose. Laws need to be so tough that they will think twice. Send them to prison in Russia or Military boot camp. Most tweakers are in need of mental health and there is no accessible mental health care or rehab for those who need it n need it quickly.
