STATE OF ALASKA 2025 LEGISLATIVE SESSION

Analysis

The bill requires that insurers develop an incentive program and provide a cash payment for consumers choosing a provider that charges less than the average price for a given service. This could incentivize consumers to seek out the best prices for their health care needs, which could increase competition and reduce health care costs.

The bill requires insurers to file a description of their incentive that complies with AS 21.96.200 – 300.

The Division of Insurance does not anticipate fiscal impact from this legislation.
