

House Fisheries Committee - HB 283 Oppose Form Letter

Dear Governor Walker:

Alaskans have proven time and time again that it's important that we have a say in how our natural resources are managed and protected. As an Alaskan that cares about how our waterways are managed, I'm writing to ask you to please withdraw your support for SB 163 and HB 283.

These bills put the decision in the hands of the legislature rather than using the Department of Environmental Conservation and other resource agencies to carry out a scientific process to determine whether or not an Alaska water body should be designated. The best approach in a state like ours, where we all value our clean water is to have the final protection decision be science based and driven by Alaskans.

You were elected by Alaskans that expected you to work with them to keep their voices in the public process, now it's up to you to put a stop to politicizing the our waterways and put our fish first.

Sincerely,

(CC: Sen. Cathy Giessel, Chairwoman, Senate Resources Committee & Rep. Louise Stutes, Chairwoman, House Fisheries Committee)
