Dear Honorable Members of the Senate Finance Committee:

As a citizen and parent of three school-aged children I'm asking you to vote "no" on HB 156. There is no good reason to keep subject matter experts such as doctors, nurses and counsellors out of the classroom. Parents already have authority to opt their children out of curriculum such as sex education.

I would also like to register my concern over the troubling lack of public testimony on this bill.

Sincerely,
