Subject: I support the Alaska LNG project

Hello,

I'm emailing you my full support for the Alaska LNG project. Alaskans need this project to happen so we can replace the natural gas we desperately need in Fairbanks and the Anchorage area. Cook Inlet natural gas is running out. We need to replace it.

We finally have bipartisan federal support for this project. And we have an international developer with LNG experience, all major permits in place and this project is ready to go!

Respectfully,

Gary Swoffer
