Dear Representative Fields,

As someone who has been a teacher at Bartlett High School for 23 years, and as a parent, I want to thank you and express support for HB 57. At the high school level, it is a continual battle, and having legislation supporting our efforts is a step in the right direction. We still have to contend with enforcement, but having state law on our side will make a difference. I appreciate your ongoing support of public education, not just in this bill, but consistently throughout your time in office.

Rebecca Vano

Subject: HB57 and SB18 - Removing Cell Phones from Public Schools
Date: Thursday, January 30, 2025 6:58:18 PM

Representative Fields and Senator Wielechowski - I am very interested and supportive of your legislation to remove cell phones from public schools. I know we're not on the same page much of the time regarding other policies but this one is long overdue. Thanks for introducing it.

Alaska Family Council stands by to provide testimony and citizen engagement as you move forward. Let me know how else we can help.
