**Subject:** PASS SB 92 and SB 112

I strongly encourage the Senate Finance Committee to pass SB 92. This is a very common sense bill that equalizes the tax structure in the fossil fuel industry while not overburdening small S-corp businesses. It will help alleviate the dire financial situation Alaska is in.

In addition, I also support the passage of SB 112, reducing the tax credits given for oil and gas production.

Thank you.

**Subject:** Support SB 92

To the Members of the Senate Finance Committee,

I am asking you to support SB 92. I am asking this because the proposed law does what the Alaska Constitution tells the Legislature to do, and that is to ensure that Alaskans get the "maximum benefit" from the use of our natural resources.

And this is doubly important for two reasons:

1. Our state really needs the revenue, and I don't need to tell you that.
2. There is an alarming disregard for the US Constitution by the current White House, and Alaska should show that we take our constitution seriously, and that it is not for sale to the oil industry.

Thank you,

Doug Woodby  
Juneau

**Subject:** Pass SB 92 and SB 112

Dear Senate Finance Committee,

I read recently in my House district's newsletter that "the state's revenue crisis is real, and it's worsening by the day."

I fully agree - and I encourage the committee to support and pass SB 92 and SB 112. Now is the time to be bold, and work to meet what in Alaska's constitution:

*The legislature shall provide for the utilization, development, and conservation of all natural resources belonging to the State, including land and waters, **for the maximum benefit of its people.***

Please pass SB 92 and SB 112.

Thank you,  
Lili Misel
