

Alaska Association of Naturopathic Physicians, Inc.

January 26, 2012

To Esteemed Members of the Alaska Legislature,

The Executive Committee of the Alaska Association of Naturopathic Physicians enthusiastically supports both HB266 and SB175. Both bills simply move one sentence of the Naturopathic regulations into statute. HB266 and SB175 do not expand the practice of Naturopathic Medicine in Alaska. Correcting the one sentence discrepancy between regulation and statute will preserve the practice of Naturopathic Medicine as it has been practiced in Alaska since 1986.

Best regards,

Jana Nalbandian, ND
