WRITTEN TESTIMONY

NAME: Samantha Laudert - Rodgers

REPRESENTING: Self + cannabis community

BILL#/ SUBJECT: _____
COMMITTEE & _____

HEARING DATE: Sept 14th, 2016

Good evening. One area of focus I did leave out unintentionally is my support of social clubs and in particular Pot Luck Events. I had a membership last year and was pleasantly surprised that it reminded me of the rec. center that I attended as a teenager and worked there as an adult. The candy bar, sofas and tables to play games or share pizza, and area to partake in my addiction - hula hooping - are not what you would find at an alcohol consuming establishment. I am never met with threat or fear in my safety or other members or people "hanging" and soliciting outside. I am also never and have never been offered black market options from members. The incinuation is infuriating, we are working to make Anch. a better, ~~and~~ safer and healthier community. The canna community come together at Pot Luck to make Anchorage a better place by planning ways we can give back to **OUR ALASKA** ♥
