FISCAL NOTE ANALYSIS

STATE OF ALASKA
2025 LEGISLATIVE SESSION

BILL NO. CSHB36

Analysis

HB36 adds a requirement for the Department of Family and Community Services-Office of Children's Services to seek court review of placements of children in state custody in a psychiatric hospital, as is currently required for placement in a secure residential psychiatric treatment center. The department currently seeks a court hearing within 30 days of a child's admission into a secure residential psychiatric treatment center and a review hearing for placements lasting longer than 90-days. Attorneys with the Department of Law provide legal counsel for these court proceedings.

The term "psychiatric hospital" is not defined in statute, but the department is able to estimate that children in the department's custody are admitted into a hospital for psychiatric treatment an average of 90 times per year. The length of a child's hospital admission can vary and an estimated 20 of these admissions will require a 90-day review hearing.

We anticipate a decrease in the number of hospital overstays which are paid for with GF funds from the department which would offset the costs of the court review hearings. The department can absorb any additional workload as a result of this legislation; therefore a zero fiscal note is submitted.
