## FISCAL NOTE ANALYSIS

**STATE OF ALASKA**  
**2025 LEGISLATIVE SESSION**

**Analysis**

This bill proposes to open the Public Employees' Retirement System (PERS) and Teachers' Retirement System (TRS) benefit plans by adding a new defined benefit tier. New employees will be enrolled into the defined benefit plan and existing members participating in the Defined Contribution Retirement (DCR) plan will be allowed a one-time opportunity to convert to the new defined benefit tier.

The Division of Retirement and Benefits' consulting actuary, Gallagher Company (formerly known as Buck), has calculated the fiscal impacts if this bill should pass as written. Projections reflect an increase to the FY 2027-2039 PERS additional state contributions and a decrease to the TRS additional state contribution in FY 2027 then increases from FY 2028-2039. The change in the additional state contributions for PERS and TRS is due to the change in the sources of contributions to each system and the change in the defined benefit and defined contribution distribution of funding.

Since this bill would take effect on July 1, 2025, there is no fiscal impact to the PERS and TRS FY 2026 additional state contributions because these amounts have already been adopted by the ARM Board. If future experience matches the actuarial assumptions used to value the plans' liabilities, the dollar impact on the PERS and TRS additional state contribution is reflected below (dollars in thousands):

Year:	FY2027	FY2028	FY2029	FY2030	FY2031
PERS	16,400.0	17,800.0	19,500.0	20,900.0	23,500.0
TRS	(300.0)	1,800.0	2,800.0	3,600.0	4,400.0
<b>Total</b>	<b>16,100.0</b>	<b>19,600.0</b>	<b>22,300.0</b>	<b>24,500.0</b>	<b>27,900.0</b>

As noted on page 3 of the attached letter from Gallagher dated March 24, 2025, projected net total increases to the PERS and TRS additional state contributions from FY 2027-2039 amount to \$467 million.

As noted in the next to last paragraph on page 1 of the Gallagher letter referenced above, "By shifting active members and all future hires from the DCR plans to the DB plans, the State will assume greater risk of larger unfunded liabilities and higher contributions in future years."

It should be noted that there will be a net increase in FY 2026 State of Alaska-as-an-employer payroll contributions because projected FY 2026 payroll and beyond is projected to increase if this bill is implemented.

Below are two tables which summarize the fiscal impacts of implementing HB78 versus the current systems in place. The first table summarizes the fiscal impacts to the PERS and TRS Additional State Contributions required by AS 39.35.280 and 14.25.085.

The second table summarizes the fiscal impacts to the State of Alaska-as-an-employer as the State is required to pay the full adopted PERS actuarially determined contribution rate, which is expected to increase over the next 13 years.

As noted in the next to last paragraph on page 1 of the Gallagher letter referenced above, "By shifting active members and all future hires from the DCR plans to the DB plans, the State will assume greater risk of larger unfunded liabilities and higher contributions in future years.
