### SPONSOR STATEMENT HB 33

***"An Act relating to participation in matters before the Board of Fisheries and the Board of Game by the members of the respective boards; and providing for an effective date."***

This legislation changes the way the Board of Fisheries and Board of Game function by allowing members to deliberate on subjects for which they have a declared personal or financial interest according to AS 39.52, the Executive Branch Ethics Act.

Members are selected based on their “knowledge and ability in the field of action by the board, and with a view to providing diversity of interests and points of view in membership” however, Title 39 prohibits a member from “taking or withholding official action in order to affect a matter in which the member has a personal or financial interest.” (AS 39.52.120(b)(4)). “Official action” is defined as “advice, participation, or assistance, including for example, a recommendation, decision, approval, disapproval, vote, or other similar action, including inaction by a public officer.” (AS 39.52.960(14)).

Currently, board members are required to divulge a conflict of interest if they, or their immediate family members, are involved in the subject matter being deliberated. The conflicted member can then no longer offer their input and expertise on the process and cannot vote on the matter at hand. Often in the fishing world, a financial or personal interest corresponds with someone’s knowledge of a particular fishery.

The passage of this bill will allow the conflicted board members to offer remarks and input on deliberations but still precludes them from voting on the conflicted issue.

Allowing members with expertise in particular fields to deliberate will assist the boards in making more informed decisions, lead to stronger resource management statewide, and align process with intent as far as the boards benefit from members’ knowledge and diverse views.

Thank you for supporting this legislation.
