Subject: I support HB47 to protect Alaska's children

Hello,

I support HB47 to protect Alaska's children.

I am also in favor of the death penalty for sexual predators of children, or traders/traffickers of all humans, but especially of children--especially repeat offenders.

Just so you know. 'Rehabilitation' is a myth.

Sincerely,
Laretia Ballance

HB 47

My name is Leslie Diane Perkins.
I live in Anchor Point.

I am writing to ask you to vote against all child porn generated by AI. It should be illegal to create, possess, and/or distribute sexual content, even AI generated sexual content, to children. I urge you to vote to save the children and protect their innocence. We must get a handle on the AI agenda and not allow it to pervert our next generation.

I urge you to vote for this and save our kids.

Thank you,

Diane Perkins

In response to recent vulnerabilities within our middle school in Homer, I would hope this legislation would receive bipartisan support and protection for our youth.

This new form of child pornography raises the ante on protecting victims. Many of which (parents included) are not even aware the 'deep fakes' have been created. This violation of privacy stretches personal freedom and child protection to the point the victims don't even know it happened until the perpetrators have converted their images into crude and disgusting yet surprisingly accurate images. Growing up in an era where your family's Christmas photo can be altered into nudity then used for resale is disgusting. Access to converting imagery especially with ai is limitless and fully undermines innocence and personal integrity of our children and YOU have the ability to limit the recurrence.

Law enforcement in AK is unable to curb this without legislation to line out reasonable expectations of violating our children in their most vulnerable innocence.

Resale for profit of such makes it even more disgusting and puts our children in rural Alaska in even more harm of sickos wanting to live out a fantasy with the fake images they bought.

Put an end to this senselessness where you can!

This is a follow up to my personal testimony in earlier hearings.

Respectfully delivered on the go with dictation!

Crisi Matthews

RE: HB47

I support HB 47 CS forwarded from House Community and Regional Affairs as follows:

"An Act relating to crime and criminal procedure; relating to generated obscene child sexual abuse material; relating to teaching certificates; and relating to licensing of school bus drivers."

I do not understand why there was "No Recommendation" from Rep. Holland, Himschott, and Mears.

I will call this afternoon at 1:00 P.M.

Thank you.
