Date: Friday, February 13, 2026 2:18:34 PM

I am a member of the League of Women Voters of the Kenai Peninsula as well as Kenai Peninsula Votes and some other lesser known organizations that work to educate the public on civics and democracy. Now, more than ever, Civics is crucial information for our population to understand. Much of the Alaskan adult population does not seem to know those basics of our history and how the government works. It is so important to start children learning about civics at the earliest age - and continuing throughout their education. This will help to form an engaged adult population. Democracy is not a spectator sport!

Please move this bill so it can get through the other body to be enacted before next school year.
