**CS FOR HOUSE JOINT RESOLUTION NO. 7( )**  
**IN THE LEGISLATURE OF THE STATE OF ALASKA**  
**TWENTY-SIXTH LEGISLATURE - FIRST SESSION**

**BY**

**Offered:**  
**Referred:**

**Sponsor(s): REPRESENTATIVES MILLETT, Lynn, Dahlstrom, Johnson, Chenault**

**A RESOLUTION**

1 **Urging the United States Congress to pass legislation to open the coastal plain of the**  
2 **Arctic National Wildlife Refuge to oil and gas exploration, development, and**  
3 **production.**

4 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 **WHEREAS**, in 16 U.S.C. 3142 (sec. 1002 of the Alaska National Interest Lands  
6 Conservation Act (ANILCA)), the United States Congress reserved the right to permit further  
7 oil and gas exploration, development, and production within the coastal plain of the Arctic  
8 National Wildlife Refuge; and

9 **WHEREAS** the oil industry, the state, and the United States Department of the  
10 Interior consider the coastal plain to have the highest potential for discovery of very large oil  
11 and gas accumulations on the continent of North America, estimated to be as much as  
12 10,000,000,000 barrels of recoverable oil; and

13 **WHEREAS** the "1002 study area" is part of the coastal plain located within the North  
14 Slope Borough, and many of the residents of the North Slope Borough, who are  
15 predominantly Inupiat Eskimo, are supportive of development in the "1002 study area"; and

1           **WHEREAS** oil and gas exploration and development of the coastal plain of the refuge  
2 and adjacent land could result in major discoveries that would reduce our nation's future need  
3 for imported oil, help balance the nation's trade deficit, and significantly increase the nation's  
4 security; and

5           **WHEREAS** the state's future energy independence would be enhanced with  
6 additional natural gas production from the North Slope of Alaska including what are expected  
7 to be significant gas reserves in the Arctic National Wildlife Refuge, and the development of  
8 those reserves would enhance the economic viability of the proposed Alaska Natural Gas  
9 Pipeline; and

10           **WHEREAS** domestic demand for oil continues to rise while domestic crude  
11 production continues to fall, with the result that the United States imports additional oil from  
12 foreign sources; and

13           **WHEREAS** development of oil at Prudhoe Bay, Kuparuk, Endicott, Lisburne, and  
14 Milne Point has resulted in thousands of jobs throughout the United States, and projected job  
15 creation as a result of coastal plain oil development will have a positive effect in all 50 states;  
16 and

17           **WHEREAS** Prudhoe Bay production is declining; and

18           **WHEREAS** the Trans Alaska Pipeline System, a transportation facility that is a  
19 national asset and that would cost billions of dollars to replace, would have its useful physical  
20 life extended for a substantial period if the additional reserves of recoverable oil from the  
21 coastal plain were produced; and

22           **WHEREAS**, while new oil field developments on the North Slope of Alaska, such as  
23 Alpine, Northstar, and West Sak, may temporarily slow the decline in production, only giant  
24 coastal plain fields have the theoretical capability of increasing the production volume of  
25 Alaska oil to a significant degree; and

26           **WHEREAS** opening the coastal plain of the Arctic National Wildlife Refuge now  
27 allows sufficient time for planning environmental safeguards, development, and national  
28 security review; and

29           **WHEREAS** the 1,500,000-acre coastal plain of the refuge makes up only eight  
30 percent of the 19,000,000-acre refuge, and the development of the oil and gas reserves in the  
31 refuge's coastal plain would affect an area of only 2,000 acres, which is less than one-half of

1 one percent of the area of the coastal plain; and

2 **WHEREAS** 8,900,000 of the 19,000,000 acres of the refuge have already been set  
3 aside as wilderness; and

4 **WHEREAS** the oil industry has shown at Prudhoe Bay, as well as at other locations  
5 along the Arctic coastal plain, that it is capable of conducting oil and gas activity without  
6 adversely affecting the environment or wildlife populations; and

7 **WHEREAS** the state will strive to ensure the continued health and productivity of the  
8 Porcupine Caribou herd and the protection of land, water, and wildlife resources during the  
9 exploration and development of the coastal plain of the Arctic National Wildlife Refuge; and

10 **WHEREAS** the oil and gas industry is developing directional drilling technology that  
11 will allow horizontal drilling in a responsible manner by minimizing the development  
12 footprint within the Arctic National Wildlife Refuge and this directional drilling technology  
13 may be capable of drilling from outside of the boundaries of the 1002 study area; and

14 **WHEREAS** the oil industry is using innovative technology and environmental  
15 practices in the new field developments at Alpine and Northstar, and those techniques are  
16 directly applicable to operating on the coastal plain and would enhance environmental  
17 protection beyond traditionally high standards; and

18 **WHEREAS** the continued competitiveness and stability of the state and its economy  
19 require that the Alaska State Legislature consider national trends towards renewable energy  
20 development; and

21 **WHEREAS** the Alaska State Legislature encourages the use of revenue from any  
22 development in the Arctic National Wildlife Refuge for the development of renewable energy  
23 resources in the state;

24 **BE IT RESOLVED** by the Alaska State Legislature that the United States Congress  
25 is urged to pass legislation to open the coastal plain of the Arctic National Wildlife Refuge to  
26 oil and gas exploration, development, and production, and that the Alaska State Legislature is  
27 adamantly opposed to further wilderness or other restrictive designation in the area of the  
28 coastal plain of the Arctic National Wildlife Refuge; and be it

29 **FURTHER RESOLVED** that that activity be conducted in a manner that protects the  
30 environment and the naturally occurring population levels of the Porcupine Caribou herd on  
31 which the Gwich'in and other local residents depend, that uses directional drilling and other

1 advances in technology to minimize the development footprint in the 1002 study area, and  
2 that uses the state's work force to the maximum extent possible; and be it

3 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States  
4 Congress to pass legislation opening the 1002 study area for oil and gas development while  
5 continuing to work on measures for increasing the development and use of renewable energy  
6 technologies; and be it

7 **FURTHER RESOLVED** that the Alaska State Legislature opposes any unilateral  
8 reduction in royalty revenue from exploration and development of the coastal plain of the  
9 Arctic National Wildlife Refuge and any attempt to coerce the State of Alaska into accepting  
10 less than the 90 percent of the oil, gas, and mineral royalties from the federal land in Alaska  
11 that was promised to the state at statehood.

12 **COPIES** of this resolution shall be sent to the Honorable Barack Obama, President of  
13 the United States; the Honorable Joseph R. Biden, Jr., Vice-President of the United States and  
14 President of the U.S. Senate; the Honorable Ken Salazar, United States Secretary of the  
15 Interior; the Honorable Nancy Pelosi, Speaker of the U.S. House of Representatives; the  
16 Honorable John Boehner, Minority Leader of the U.S. House of Representatives; the  
17 Honorable Harry Reid, Majority Leader of the U.S. Senate; the Honorable Mitch McConnell,  
18 Minority Leader of the U.S. Senate; the Honorable Jeff Bingaman, Chair of the Energy and  
19 Natural Resources Committee of the U.S. Senate; the Honorable Lisa Murkowski and the  
20 Honorable Mark Begich, U.S. Senators, and the Honorable Don Young, U.S. Representative,  
21 members of the Alaska delegation in Congress; and all other members of the 111th United  
22 States Congress.
