- State-wide net metering for all utility types
- \* State-wide net metering for certain utility types only (e.g., investor-owned utilities)
- Net metering offered voluntarily by one or more individual utilities

*Note: Numbers indicate individual system size limit in kilowatts (kW). Some states' limits vary by customer type, technology and/or system configuration; this is the case when multiple numbers appear for one state. Other limits may also apply. For complete details, see [www.dsireusa.org](http://www.dsireusa.org).*

**Net metering is available in 44 states + D.C.**
