**ANALYSIS:** (Attach a separate page if necessary)

This bill will not result in increased costs to the Medicaid program. It could reduce Medicaid benefit costs by continuing coverage for dependent students during medically necessary leaves of absence from college and requiring group health insurers to allow an employee to request coverage under a group health insurance plan within 60 days if the employee or a dependent loses medical assistance coverage or becomes eligible for medical assistance. The costs avoided are indeterminate but are likely to be small because most medical assistance enrollees do not have access to private health insurance.
