ANS production forecasts for 2015 from Fall Revenue Source Books - 2004 to 2009

The production trend is not good. Let's just pick 2015 production, as an illustration. Not only is the total dropping, but the important category of Under Evaluation is falling. So while projects have moved into Under Development from the 2007 to the 2009 forecast, the future looks thin, very thin.

Fall 2004 Forecast

Currently Producing	Under Development	Under Evaluation	Total ANS
345,000	243,000	262,000	850,000

Fall 2007 Forecast

Currently Producing	Under Development	Under Evaluation	Total ANS
428,000	107,000	149,000	684,000

Fall 2009 Forecast

Currently Producing	Under Development	Under Evaluation	Total ANS
385,000	213,000	25,000	623,000

2018 Projections from Fall 2007 and 2009 Source Books

And here's another comparison between the Fall 2007 and Fall 2009 Forecast books, looking at production projections for 2018:

Fall 2007 Forecast

Currently Producing	Under Development	Under Evaluation	Total ANS
373,000	86,000	221,000	680,000

Fall 2009 Forecast

Currently Producing	Under Development	Under Evaluation	Total ANS
298,000	207,000	55,000	561,000
