ANALYSIS: (Attach a separate page if necessary)

This bill would create a procedure for DNA testing in post-conviction cases where a defendant was convicted of a crime under AS 11.41. The bill also creates a procedure for preserving and destroying physical evidence as well as a task force for standards for preservation of evidence. Because OPA handles all of the conflicts of interest from the Public Defender Agency, including any claims by clients that they received ineffective assistance of counsel from their PDA trial attorney, the agency receives a substantial portion of the post-conviction relief assignments. It is possible that cases filed under this new procedure could increase the attorney and support staff workload. Additionally, the agency must rely upon private contractors to handle a portion of these cases when the agency staff has a conflict of interest. The agency does not predict a significant fiscal impact as a result of this statute and therefore submits a zero fiscal note.
