Subject: I Oppose HB266

Dear Rep. Edgmon,

I urge you to oppose HB266. This bill would cause hardship to my community, Cordova, where I have lived and depended on the Copper River salmon runs for many years.

Is it justified to pass legislation that would seriously harm many fishermen and their families, and the communities they live in? I am appalled that a livelihood I have participated in for 30 years could be voted out of existence.

Sincerely,

Jeff Phillips
