Re: HB 74

To: House Community and Regional Affairs Committee  
Senate Resources Committee  
Representative Thomas  
Senator Kookesh

HB 74 and the companion bill in the House address issues raised by Coastal Management Zone planners at the ACMP workshop in December, 2008, in Anchorage. The bills establish a coastal policy board, bring DEC back into the consistency review process, and allow coastal districts to have enforceable policies as long as they are not specifically barred by state or federal law.

Please support this bill.

Thank you.

Anne Cervenka  
City Planner  
City of Cordova
