RE: SB 213 (Wielechowski)--Support

Dear Co-Chairs Meyer and Thomas:

On behalf of the members of AARP in Alaska, we encourage you and your colleagues on the Senate Education Committee to support SB 213, authored by Senator Bill Wielechowski, and co-sponsored by Senators McGuire, Ellis, Paskvan, Menard, Thomas, Davis, French and Kookesh.

AARP is the world's largest organization of grandparents. We are concerned about good nutrition for everyone's grandchildren.

We have many grandparents who are raising their grandchildren.

- As of October, 2007, Alaska had 8,188 children living in grandparent-headed households (4.3% of all the children in the state).
- Of the children living in households headed by grandparents in Alaska, 5,110 are living there without either parent present.
- 5,419 grandparents report they are responsible for their grandchildren living with them (43% are Alaska Natives, 41% are White).
- 67.4% of these grandparents are under age 60. Many of them are still in the workforce.
- 11.5% of these grandparents live below the federal poverty level.

A healthy future for Alaska's children should be something everyone can agree on.

You will see all the statistics about how school breakfasts and lunches improve education for these children. Their test scores are higher, their cognition is enhanced, and they make fewer mistakes and work faster. Children who participate in the school nutrition programs have fewer problems with obesity and school violence even drops. All these factors will help grandparents who are raising grandchildren, especially those who are

still in the workforce and leave home before the grandchildren leave for school. Obviously these programs are even more important for those 11.5% of grandparents raising grandchildren who are themselves below the poverty level.

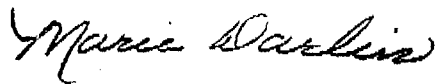

Grandparents don't plan on raising their grandchildren. Circumstances happen to families and these grandparents step up to the plate to take care of these kids and keep them out of the foster care program. SB 213 is one more way that the state can help support the efforts of these grandparents. They can certainly use it.

AARP requests an "AYE" vote on SB 213.

Should you have any questions about our position, please feel free to contact me (586-3637) or Patrick Luby, AARP Advocacy Director (907-762-3314).

Thank you for your consideration.

Sincerely,

Marie Darlin, Coordinator

RESOLUTION

Supporting for State Funding for School Meals

Passed at Regional School Board Meeting, Nov. 19, 2009

WHEREAS The mission of the Alaska Food Coalition (AFC) – a statewide group of 77 non-profit, faith-based, tribal and government organizations is working to help feed hungry Alaskans in their communities and strengthen and coordinate public and private food and nutrition assistance programs in the state; and

WHEREAS Yupit School District fully supports AFC's efforts to ensure children start each school day with a healthy and balanced meal; and

WHEREAS according to data from the 2006 Behavioral Risk Factor Surveillance System (BRFSS), 15% of Alaskan children experience food insecurity, compared with 11% of Alaskan adults, meaning they don't have access at all times to enough food for a healthy active life; this problem is more severe in rural Alaska, where nearly one child in four experience food insecurity; and

WHEREAS insufficient nutrition puts children at risk for illness and weakens their immune system. In comparison to food secure children, children from food insecure families are 90% more likely to be in fair or poor health and have 30% higher rates of hospitalization; and

WHEREAS the lack of adequate nutrition affects the cognitive and behavioral development Of Children. Food insecurity is associated with grade repetition, absenteeism, tardiness, anxiety, aggression, poor mathematics scores, psychosocial dysfunction and difficulty with social interaction among 6 to 12 year old children; and

WHEREAS food security puts children in development in jeopardy, characterized by challenges with speaking, behavior, and movement, increasing the likelihood of later problems with attention, learning and social interaction. Young children living in low income and food insecure households are more likely to be developmentally at risk than children from food secure households; and

WHEREAS federal programs exist to assist in providing nutrition to children through the schools – most notably the National School Lunch Program and the School Breakfast Program; and

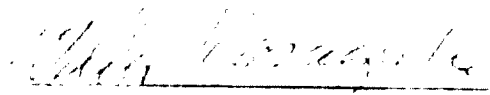

WHEREAS the School Breakfast Program decreases food insecurity in children by providing five healthy meals a week in Alaska schools. 10% of students qualify for free/reduced school meals – over 15,000 students; of these, 15% do not attend schools that offer a breakfast program – that's over 7,000 missed meals each day; and

WHEREAS 104 out of 306 schools in Alaska did not offer the federal School Breakfast Program in the 2008-2009 school year; and

WHEREAS Alaskan schools primarily do not offer breakfast programs because it is not economically feasible. The federal reimbursement for breakfast does not cover the high cost of food and transportation in Alaska.

THEREFORE BE IT RESOLVED that Yupit School District supports an adequate financial appropriation from the state to strengthen and expand the School Breakfast Program in Alaska, so that breakfast may be available to all children at all schools throughout the state, including low income children and children with food insecurity. No child in Alaska should go without breakfast.

ADOPTED this 19th day of November 2009 at the YSD's Regional Board of Education meeting held in Tuluksak, Alaska, at which a duly constituted quorum of Regional Board members were present

KENAI PENINSULA BOROUGH SCHOOL DISTRICT

RESOLUTION 09-10-2

SUPPORT FOR STATE FUNDING FOR SCHOOL MEALS

Pursuant to the filing of Senate Bill No. 213, "An Act providing for funding for school lunch and breakfast", the Board of Education of the Kenai Peninsula Borough School District at a meeting held at Soldotna, Alaska on February 1, 2010, proposed the following resolution:

WHEREAS, according to data from the 2006 Behavioral Risk Factor Surveillance System (BRFSS), 15% of Alaskan children experienced food insecurity, compared with 11% of Alaskan adults, meaning they don't have access at all times to enough food for a healthy active life; this problem is more severe in rural Alaska, where nearly one child in four experienced food insecurity; and

WHEREAS, insufficient nutrition puts children at risk for illness and weakens their immune system. In comparison to food secure children, children from food insecure families are 90% more likely to be in fair or poor health and have 30% higher rates of hospitalization; and

WHEREAS, the lack of adequate nutrition affects the cognitive and behavioral development of children. Food insecurity is associated with grade repetition, absenteeism, tardiness, anxiety, aggression, poor mathematics scores, psycho-social dysfunction and difficulty with social interaction among 6 to 12 year old children; and

WHEREAS, food insecurity puts children in development in jeopardy, characterized by challenges with speaking, behavior, and movement; increasing the likelihood of later problems with attention, learning, and social interaction. Young children living in low income and food insecure households are more likely to be developmentally at risk than children from food secure households; and

WHEREAS, the United States Department of Agriculture (USDA) lunch and breakfast programs exist as the base support for nutrition to children through the school meal programs, most notably the National School Lunch Program and the National School Breakfast Program; and

WHEREAS, the National School Breakfast Program decreases food insecurity in children by providing five healthy meals a week. In Alaska schools 40% of students qualify for free/reduced school meals, over 45,000 students; of these, 15% do not attend schools that offer a breakfast program - that's approximately 7,000 missed meals each day; and

WHEREAS, 104 out of 406 schools in 46 districts in Alaska did not sponsor/offer the federal School Breakfast Program in the 2008-2009 school year; and

WHEREAS, Alaskan schools primarily do not sponsor National School Breakfast Programs because it is not economically feasible. While USDA funding support per meal for Alaska school breakfasts is 43% greater than support for school breakfasts in the contiguous states, funding levels are still not sufficient for many Alaska school meal sponsors to sustain or enhance nutrition services to students; and

WHEREAS, 29 states do take responsibility for assisting federally supported school meal programs for success in the classroom and relief from food security;

THEREFORE BE IT RESOLVED, that the Kenai Peninsula Borough School District supports an adequate financial appropriation from the state to strengthen and expand the National School Lunch and Breakfast Program in Alaska, so that school breakfast programs and sustainable lunch may be available to all children at all schools throughout the state, including low income children and children with food insecurity. No child in Alaska should go without breakfast.

Joe Arness, President
