PETITION DEMANDING ALASKA JOIN IN LEGAL ACTION TO REPEAL HEALTH CARE BILL

With the passage of the Health Care Reform Bill, America is teetering toward tyranny. A mandate requiring all individuals to purchase health insurance is an unprecedented form of federal action. A legal challenge by the States appears to be the only hope of protecting the American people from this unprecedented attack on our system of government. At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.

PETITION DEMANDING ALASKA JOIN IN LEGAL ACTION TO REPEAL HEALTH CARE BILL

With the passage of the Health Care Reform Bill, America is teetering toward tyranny. A mandate requiring all individuals to purchase health insurance is an unprecedented form of federal action. A legal challenge by the States appears to be the only hope of protecting the American people from this unprecedented attack on our system of government. At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.

PETITION DEMANDING ALASKA JOIN IN LEGAL ACTION TO REPEAL HEALTH CARE BILL

With the passage of the Health Care Reform Bill, America is teetering toward tyranny. A mandate requiring all individuals to purchase health insurance is an unprecedented form of federal action. A legal challenge by the States appears to be the only hope of protecting the American people from this unprecedented attack on our system of government. At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.

PETITION DEMANDING ALASKA JOIN IN LEGAL ACTION TO REPEAL HEALTH CARE BILL

With the passage of the Health Care Reform Bill, America is teetering toward tyranny. A mandate requiring all individuals to purchase health insurance is an unprecedented form of federal action. A legal challenge by the States appears to be the only hope of protecting the American people from this unprecedented attack on our system of government. At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.

At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.

PETITION DEMANDING ALASKA JOIN IN LEGAL ACTION TO REPEAL HEALTH CARE BILL

With the passage of the Health Care Reform Bill, America is teetering toward tyranny. A mandate requiring all individuals to purchase health insurance is an unprecedented form of federal action. A legal challenge by the States appears to be the only hope of protecting the American people from this unprecedented attack on our system of government. At least fifteen states are instituting legal action to challenge the constitutionality of the health care reform bill. Alaska should take its place in this list of States and join in the legal fight. By signing this petition you are demanding the Governor and Attorney General join in the legal action to repeal the Health Care Bill.
