ANALYSIS:

(Attach a separate page if necessary)

House Bill 13 raises the dollar amounts associated with a variety of property crimes. The increases that have the potential to impact the court system are those that raise from \$500 to \$1,500 the value of property that must be stolen or damaged before a felony crime is committed. These changes will impact the court if they result in a significant number of cases moving from the superior court, where the cost per case is high, to the district court, where the cost per case is lower. However, a review of available information shows that, because of the way these cases are prosecuted and processed, the majority of property crimes impacted by this bill are already resolved in the district court. Because of this, this bill will not have a measurable impact on the court system. What it will do, however, is change the way these cases are counted to more accurately reflect current workloads.
