Table 2. Academic Program Applications, Admissions, and Enrollment of Applicants, AY06 - AY08

Note: The academic programs reported here are based on the crosswalked reporting values as specified in Table 1. Individual students are often counted more than one time in the table below, which counts each student and unique program a student applies to during the course of an academic year. For example, a student applying to two different programs in the course of a year would be counted twice here. A student who applied to the same program two times in the course of the year would be counted one time with the last recorded admission status.

The Admitted category is a subset of the Applied category and refers to whether the student is admitted into the degree program he or she applied for. The category Admitted and Enrolled is a subset of the Admitted category and indicates the admitted student also enrolled in one or more courses. The course may or may not be related to the program.

Academic Year (AY) - consists of consecutive summer, fall, and spring semesters. For Example, AY06 includes the following semesters: summer 2005, fall 2005 and spring 2006.

Table 3. Student Enrollment by Primary Major, AY06 - AY08

Note: The academic programs reported here are based on the crosswalked reporting values as specified in Table 1. Individual students are often counted more than one time in the table below, which counts each unique primary declared academic program a student holds during the course of an academic year. For example, a student who changes primary academic programs during the year would be counted two times.

Academic Year (AY) - consists of consecutive summer, fall, and spring semesters. For Example, AY06 includes the following semesters: summer 2005, fall 2005 and spring 2006.

Table 4. Student Enrollment by Primary and Secondary Major, AY06 - AY08

Note: The academic programs reported here are based on the crosswalked reporting values as specified in Table 1. Each unique primary and secondary major is counted once in this report. A student having concurrent primary and secondary programs in an academic year are counted twice in this report. Students who have only a primary major but who change majors during the year are also counted twice in this report.

Academic Year (AY) - consists of consecutive summer, fall, and spring semesters. For Example, AY06 includes the following semesters: summer 2005, fall 2005 and spring 2006.

Note: The student count is unduplicated by Academic Year, however students taking courses from more than one campus are duplicated.
 Delivering Campus - the campus delivering the course.

Serving Campus - the campus where the student is physically located, denoted by STVSUDA.STVSUDA_DESC.

Academic Year (AY) - consists of consecutive summer, fall, and spring semesters. For Example, AY06 includes the following semesters: summer 2005, fall 2005 and spring 2006.

Distance Education Courses are defined by DSDMGR.DSD_SECTION.DISTANCE_FLAG_MOD.
