January 20, 2011

The Honorable Eric Feige  
The Honorable Paul Seaton  
House Resources Committee  
Alaska State Legislature  
State Capitol  
Juneau, AK 99801

Dear Representatives Feige and Seaton:

House Bill 110 was read across the floor on January 18, 2011 and transmitted to the House Resources Committee for consideration. I respectfully request a hearing to be scheduled at your earliest convenience for the changes to the production tax on oil and gas to be discussed.

Governor Parnell is committed to getting more oil into the pipeline and increasing job opportunities for Alaskans. As oil production declines and as the federal government moves on several fronts to block responsible projects, we must offer more incentives for development of state lands.

House Bill 110:

- Establishes a lower base tax rate for areas outside of current fields and units to encourage development of undeveloped leases or properties;
- Caps overall production tax rates to encourage investment at most commodity prices;
- Establishes a bracket system based on existing ACES tax rates;
- Extends tax incentives available in Cook Inlet to the North Slope to encourage in-field drilling in existing units;
- Limits the time for assessment of additional production taxes; and
- Reduces the interest rate on delinquent taxes and refunds.

These changes are aimed at ensuring that the state continues to receive fair compensation for the sale of its resource while establishing a more competitive investment climate for job creation.

If the Committee requires any additional information, please contact me.

Sincerely,

Ginger Blaisdell  
Director
