# HB 121 – REVOLVING LOAN FUNDS

---

## Background

- All three funds are set up as revolving loan funds
- All earnings, loan repayments and fees would be retained by the fund for future loans.
- All operating expenses would also be paid from earnings of the fund

# HB 121 – REVOLVING LOAN FUNDS

---

## Background

### Input from:

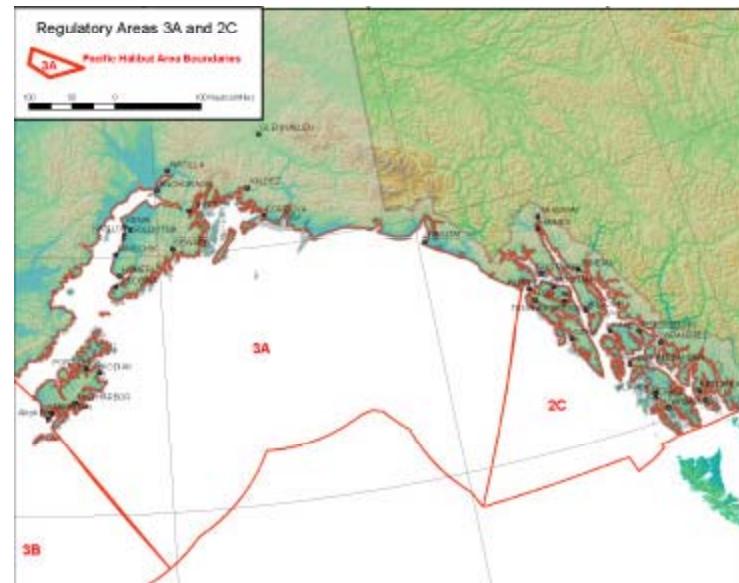

- ADEPT/Legacy Working Groups
- Non-Governmental Organizations and Trade Associations
- Commissioner's Economic Advisors Council
- ARDORs
- CDQs
- ANCSA Corporations

# HB 121 – REVOLVING LOAN FUNDS

- Commercial Charter Fisheries Revolving Loan Fund

## Current Halibut Charter Activity

Effective February 1, 2011 all vessel operators in Areas 2C and 3A with charter anglers onboard catching and retaining Pacific halibut must have an original, valid Charter Halibut Permit (CHP).

Based on log books NOAA estimates 532 Eligible Permittees; some 800 applications were received.

Permit prices are still being established in the marketplace. Current asking prices range from \$40,000 to over \$100,000 depending on the number of fishermen the permit allows.

# HB 121 – REVOLVING LOAN FUNDS

---

- Commercial Charter Fisheries Revolving Loan Fund
  - Provide access to capital for Alaskan-owned Charters
  - Repatriate permits to Alaska
  - Increase economic benefits from this sector

By offering a loan program to Alaska residents, business owners will have greater access to capital when purchasing permits over non-residents. This in turn should allow Alaska business owners to repatriate more permits than otherwise using traditional financing. Additionally, with Alaska's year-round residents owning permits, Alaska's economy will realize more of the benefits associated with the sport/charter industry. Resident's contribution to the local economy will be greater than non-resident permit holders as they circulate funds in the economy year round.
