

Graduation Rates and Dropout Rates Definitions and Data

The Graduation Rate is a measure of the percentage of students that graduate within four years.

A **graduate** is defined as a student who has received a regular diploma from a state- or district-approved education program, as evidenced by receipt of a secondary school diploma from school authorities.

<u>School Year</u>	<u>Graduation Rate</u>	<u>Graduate Count</u>
2005	61.4%	6,905
2006	61.6%	7,361
2007	63.0%	7,666
2008	62.6%	7,855
2009	67.5%	8,008
2010	67.7%	8,245

The Dropout Rate is computed by dividing the number of dropouts in the current school year by the number of students enrolled in grades 7-12 on October 1 of the current school year. School year is defined as the 12-month period beginning with July 1 and ending June 30.

A **Dropout** is defined as a student who was enrolled in the district at some time during the school year and whose enrollment terminated. This does not include an individual who:

- graduated from high school or completed a state or district approved education program, as evidenced by receipt of formal recognition from school authorities;
- transferred to another public school, private school or state or district approved education program;
- is temporarily absent due to suspension;
- is absent due to illness or medical condition;
- died.
