## FISCAL NOTE

## STATE OF ALASKA 2012 LEGISLATIVE SESSION

BILL NO. SB 150

## **Analysis**

SB 150 would require the department or board to accept relevant experience, training or service acquired while serving in the armed forces. The bill would allow greater flexibility for those exiting military service to become temporarily licensed in Alaska.

The following is a detailed cost analysis:

Personal Services consist of a long term non-perm Regulations Specialist I (Range 13) and an Administrative Assistant (Range 14). The Regulation Specialist I will work with boards, commissions, and staff to create regulations for new "temporary license" types for all licenses, and will craft clarifying regulations for programs with existing temporary licenses. The Administrative Assistant II will work with the Regulations Specialist and existing Publications Specialist II to draft correspondence to boards and commissions, create new forms and applications, liaison with the Department of Law regarding these regulations changes, and ensure timelines are maintained. This position will administer the military licensing program, including the receiving and tracking of military applications to ensure they are expedited, providing administrative support to licensing staff, customer support to military personnel, and organizing an accurate structure of the new license types into the licensing database. Once these regulations are in place, updates can be managed by existing staff and the Regulations Specialist position will be eliminated.

Services include the initial legal and start up costs, and ongoing support services.

Commodities include general supply costs.

Under the self-sufficiency statue of AS 08.01.065, regulatory programs are required to pay the cost of regulation through licensing fees. The funding source in establishing this position is Receipt Supported Services funded entirely from licensing fees.
