Subject: HB-7 and SB-17

Honorable Representatives Munoz and Kerttula, and Senator Egan:

Please support the above bills and outlaw synthetic cannabis products (Spice, K2, etc.).

- This family of drugs is intended to produce a high – thus users are impaired in any activities they may undertake (e.g. driving)
- These products appear to be falsely labeled and do not contain herbal plants, but rather cannabinoid compounds related to THC (active ingredient in pot); i.e., they lie

It would appear these products are a thinly veiled effort to bypass anti-marijuana rules to sell pot by-any-other-name. Whether it is pot or other, the stated intent is to produce a drugged high. That alone is sufficient to merit regulation as a controlled substance. At a minimum it should be so regulated – at best it would be made illegal. It's market is based on wriggling around anti-drug law. Let's close the door on the deceptive marketing of pot by-any-other-name. It is a drug (or group of drugs) being made available to the public essentially as an unregulated nutraceutical. This is a sham and should be ended.

Respectfully,

Frank Bergstrom
