

**CS FOR HOUSE CONCURRENT RESOLUTION NO. 18(FSH) am**

**IN THE LEGISLATURE OF THE STATE OF ALASKA**

**TWENTY-SEVENTH LEGISLATURE - SECOND SESSION**

**BY THE HOUSE SPECIAL COMMITTEE ON FISHERIES**

**Amended: 2/27/12**

**Offered: 2/15/12**

**Sponsor(s): HOUSE SPECIAL COMMITTEE ON FISHERIES**

**A RESOLUTION**

1 **Relating to an examination of fisheries-related programs to facilitate the entry of young**  
2 **Alaskans into commercial fisheries careers and to collaboration with the University of**  
3 **Alaska fisheries, seafood, and maritime initiative.**

4 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 **WHEREAS** the Alaska seafood industry employs more workers than any other  
6 private sector industry in the state; and

7 **WHEREAS**, to continue to thrive, the Alaska resident seafood industry will need  
8 future generations of Alaskans to engage in rewarding, ownership-level careers in the  
9 industry; and

10 **WHEREAS** the average age of a commercial salmon fishing skipper in the state has  
11 risen from approximately 41 years of age in 1980 to older than 49 years of age in recent years;  
12 and

13 **WHEREAS** the average age of an Alaska Peninsula salmon seine permit holder is  
14 53.6 years, the average age of a Bristol Bay driftnet permit holder is 47.9 years, and the  
15 average age of a Southeast power troll permit holder is 53.9 years; and

1       **WHEREAS**, since the advent of limited entry and quota share fisheries, the financial  
2 barriers that hinder young Alaskans in establishing viable fishing businesses have mounted  
3 and multiplied, with the cost of some limited entry salmon permits at more than \$100,000 and  
4 the average cost of halibut quota shares rising 195 percent between 1995 and 2009; and

5       **WHEREAS** the overall cost of entry into the commercial fisheries on a diversified  
6 level sufficient to provide a viable income for a skipper and crew has increased to at least  
7 \$300,000 for boat, gear, permit, and quota shares; and

8       **WHEREAS** escalating costs thwart the ambitions of young fishers, many of whom  
9 lack the extensive credit histories and considerable collateral assets needed to secure  
10 substantial bank loans; and

11       **WHEREAS** a modern commercial fishing operation requires an operator to possess  
12 business savvy and a sophisticated understanding of regulatory processes, as well as the  
13 ability to engage with federal and state fisheries policy makers; and

14       **WHEREAS** barriers faced by young people in the state seeking to acquire ownership  
15 of fisheries operations play a significant role in the drain of limited entry permits and fishery  
16 quota shares from coastal communities and contribute to increasing ownership of fisheries  
17 permits and businesses in the state by nonresidents; and

18       **WHEREAS** programs of the commercial fishing revolving loan fund in the  
19 Department of Commerce, Community, and Economic Development seek to promote the  
20 development of predominantly resident fisheries in the state; and

21       **WHEREAS** the office of fisheries development in the Department of Commerce,  
22 Community, and Economic Development provides a wide variety of resources designed to  
23 spur fisheries-related economic development; and

24       **WHEREAS** the Alaska sea grant marine advisory program, which is funded in part by  
25 the legislature through the University of Alaska, provides young Alaskans with education and  
26 training in fisheries business financial management, seafood direct marketing, state and  
27 federal regulatory processes, and effective public speaking before regulatory bodies; and

28       **WHEREAS**, to varying degrees, high schools and postsecondary educational  
29 institutions in the state offer classes in fisheries skill sets and nautical sciences; and

30       **WHEREAS** the University of Alaska Fairbanks offers a bachelor of arts degree in  
31 fisheries to provide students with a knowledge base, skills set, and practical experience to be

1 highly competitive in obtaining rewarding employment in the state's fishing industry, and the  
 2 University of Alaska Southeast fisheries technology program exposes young people to  
 3 promising careers in commercial fishing and offers programs in aquaculture and fisheries  
 4 management; and

5 **WHEREAS** the graying of the fleet in the state continues unabated; and

6 **WHEREAS**, in June 2011, University of Alaska President Patrick Gamble created the  
 7 allied fisheries working group as a cross-campus initiative to assess and enhance the  
 8 development of programs, courses, research, and information that meet the employment needs  
 9 of the fisheries, seafood, and maritime industries; and

10 **WHEREAS** the allied fisheries working group was established to sustain and enhance  
 11 the economy and the communities in the state by developing education and training that  
 12 supports a responsive work force and enables the fishing, seafood, and maritime industries to  
 13 continue to be vibrant and substantial contributors to the state; and

14 **WHEREAS** the allied fisheries working group was established to assist Alaskans,  
 15 particularly young Alaskans, to discover and prepare for the wide range of employment  
 16 opportunities in the fishing, seafood, and maritime industries; and

17 **WHEREAS**, in the latest phase of University of Alaska's initiative, the university has  
 18 joined the fishing industry, government, and Rasmuson Foundation participants to create the  
 19 University of Alaska fisheries, seafood, and maritime initiative; and

20 **WHEREAS** the goals of the University of Alaska fisheries, seafood, and maritime  
 21 initiative align closely with the Alaska State Legislature's objective to turn the tide on the  
 22 graying of the fleet by strengthening programs and providing resources to facilitate the entry  
 23 of young Alaskans into gainful, lifelong, ownership-level commercial fishing careers;

24 **BE IT RESOLVED** that the Alaska State Legislature endorses and encourages the  
 25 continuing work of the University of Alaska fisheries, seafood, and maritime initiative; and be  
 26 it

27 **FURTHER RESOLVED** that the president of the senate shall appoint one senator  
 28 and the speaker of the house of representatives shall appoint one representative as liaisons to  
 29 the University of Alaska fisheries, seafood, and maritime initiative so that the Alaska State  
 30 Legislature is kept well apprised of the initiative's progress; and be it

31 **FURTHER RESOLVED** that the legislators appointed as liaisons to the University

1 of Alaska fisheries, seafood, and maritime initiative shall provide quarterly reports to the  
2 legislature on the initiative's progress; and be it

3 **FURTHER RESOLVED** that, by January 20, 2013, the legislators appointed as  
4 liaisons to the University of Alaska fisheries, seafood, and maritime initiative shall submit  
5 recommendations to the legislature regarding ways in which the legislature may effectively  
6 contribute to the initiative.

7 **A COPY** of this resolution shall be sent to the Honorable Patrick Gamble, President of  
8 the University of Alaska.
