"Protecting the natural environment of the Tongass while supporting the development of sustainable communities in Southeast Alaska – since 1967."

Speaker of the House Mike Chenault
 State Capitol Room 208
 Juneau, AK 99801

April 4, 2013

Speaker Chenault and members of the Alaska State House of Representatives,

The community of Sitka urges you to vote against Senate Bill 21. We believe this is a **wealth giveaway** to the oil industry with no guarantee they will act in the public's best interest, increase production, or create jobs. If this bill becomes law, savings Alaska has accrued from years of oil tax revenue will move back into the pockets of the world's most profitable corporations. Now is the wrong time: funding for our schools and critical services is being cut. We should not hand out tax breaks at the expense of our future.

Please add this petition to whatever file pertains to the bill, and let it serve as a testament that many in the Sitka community stand firmly against SB 21.

Thank you, Mr. Speaker.
