(discuss reasons and fund source(s) in analysis section)

ASSOCIATED REGULATIONS

Does the bill direct, or will the bill result in, regulation changes adopted by your agency? No
If yes, by what date are the regulations to be adopted, amended or repealed?

Why this fiscal note differs from previous version:

Updated to clarify language in the analysis section. The CS will have no fiscal impact for state agencies.

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. HB 275

Analysis

This legislation does the following:

1. Allows a municipality, by ordinance, to provide for electronic publication by posting the notice for three consecutive weeks on a municipal Internet website, instead of newspaper publication;

2. Requires that state agencies that produce and distribute reports, post these reports on the state's Online Public Notice Website. An agency may not produce print copies of reports except as required
 - (A) under AS 14.56.120;
 - (B) by agreement; or
 - (C) by federal law; or

Requested under AS 44.99.260 or specifically approved by the head of the agency, or the agency head's designee. In preparing this fiscal note, the definition of "report" was used as defined in section 5 of the bill.

This bill will result in no cost to the state.

This legislation will, overall, result in a cost savings to the state, but the extent of the savings is inconclusive. The annual cost for printing state agency reports is estimated at \$530,000 statewide. Many state agencies currently distribute reports electronically when possible, and do not realize contracted printing costs. Given that the bill's prohibition on printing reports does not apply under certain circumstances, such as when agencies are required to print reports under the situations defined above, we do not know how many reports may be printed as a result.

Also, if persons want a printed copy of a report, they can obtain a copy from the State Library Distribution and Data Access Center (Center). The number of requests that the Center may receive for printed reports and the cost of fulfilling those requests are unknown. Thus the bill will most likely result in a cost savings; however, the extent of the savings is inconclusive.
