BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** The uncodified law of the State of Alaska is amended by adding a new section to read:

LEGISLATIVE FINDINGS AND INTENT. (a) The legislature finds that

(1) the future oil and gas development in the state is of vital public interest, particularly the commercial development of the gas deposits from the North Slope; that development will include major infrastructure components including a natural gas pipeline, associated infrastructure, a gas treatment facility, a liquefaction facility, and a marine terminal;

(2) much of the infrastructure required for commercial development of North Slope natural gas will be within the boundaries of local governmental entities located within or along the natural gas pipeline route and at the pipeline terminus at tidewater;

(3) the development of North Slope natural gas will provide benefits to the state including employment opportunities, royalty and tax revenues, including tax revenue under AS 43.56 (Oil and Gas Exploration, Production, and Pipeline Transportation Property Taxes), and could provide delivery of natural gas to communities along the natural gas pipeline route from the North Slope to a terminus point with liquefaction and marine terminal facilities;

(3) the commissioner of natural resources will be authorized, through this legislation, to enter short term commercial agreements and to negotiate with the developers and other parties in order to secure the state's participation through contracts, which will be presented to the legislature for authorization;

(4) the interests of the State and local governmental entities must be considered in contract negotiations to protect the financial and other interests of the state and those local governmental entities.

(b) It is therefore the intent of the legislature to provide the commissioner of natural resources with the authority necessary to enter short term commercial agreements and negotiate contracts and develop terms for inclusion in proposed contracts, subject to legislative approval, associated with a North Slope natural gas project and that the commissioner of natural resources, in those negotiations, consider and suggest for incorporation into contracts terms for state participation in a North Slope natural gas project

that include

(1) subject to confidentiality agreements, provisions for reasonable disclosure of information related to the state's interest in a North Slope natural gas project including liquefaction, to representatives of the state administration when those representatives are acting in a proprietary capacity;

(2) access and pro-expansion principles, opportunities for delivery of gas to Alaskans, payments in lieu of property taxes on a unit rate per throughput basis, and serial impact payments to be paid by the developers of a North Slope natural gas project to help offset increased services and other costs borne by the state and local governments;

(3) to the maximum extent permitted by law, seek to negotiate separately with producers of North Slope gas regarding the purchase or other disposition of liquefied natural gas made from the state's share of natural gas delivered to a liquefaction facility in the state;

(4) to the maximum extent permitted by law, contract provisions for project labor agreements, employment of Alaska residents, contracts with Alaska businesses, and provisions to work with state job centers, associated services and job training services.

* **Sec. 2.** AS 31.25.005 is amended to read:

Sec. 31.25.005. Purpose. The corporation shall, for the benefit of the state, to the fullest extent possible,

(1) advance an in-state natural gas pipeline as described in the July 1, 2011, project plan prepared under former AS 38.34.040 by the corporation while a subsidiary of the Alaska Housing Finance Corporation, with modifications determined by the corporation to be appropriate to develop, finance, construct, and operate an in-state natural gas pipeline in a safe, prudent, economical, and efficient manner, for the purpose of making natural gas, including propane and other hydrocarbons associated with natural gas other than oil, available to Fairbanks, the Southcentral region of the state, and other communities in the state at the lowest rates possible;

(2) endeavor to develop natural gas pipelines and other transportation mechanisms to deliver natural gas, including propane and other hydrocarbons associated with natural gas other than oil, to public utility and industrial customers in areas of the state to which the natural gas, including propane and other hydrocarbons associated with natural gas other than oil, may be delivered at commercially

reasonable rates; and

(3) endeavor to develop natural gas pipelines and other transportation mechanisms that offer commercially reasonable rates for shippers and access for shippers who produce natural gas, including propane and other hydrocarbons associated with natural gas other than oil, in the state;

(4) advance to develop a large-diameter natural gas pipeline project other than the in-state natural gas pipeline described in (1) of this section by acquiring an equity interest in a large-diameter natural gas pipeline project through the subsidiary under AS 31.25.122;

(5) advance to develop, finance, construct, and operate facilities for liquefaction and treatment in connection with a large-diameter natural gas pipeline project other than the in-state natural gas pipeline described in (1) of this section through the subsidiary under AS 31.25.122.

* **Sec. 3.** AS 31.25.010 is amended to read:

Sec. 31.25.010. Structure. The Alaska Gasline Development Corporation is a public corporation and government instrumentality located for administrative purposes in the Department of Commerce, Community, and Economic Development, but having a legal existence independent of and separate from the state. The corporation may not be terminated as long as it has bonds, notes, or other obligations outstanding. The corporation may dissolve when no bonds, notes, or other obligations of the corporation or a subsidiary of the corporation are outstanding and the corporation or a subsidiary of the corporation is no longer engaged in the development, financing, construction, or operation of an in-state natural gas pipeline **or a large-diameter natural gas pipeline project.** Upon termination of the corporation, its rights and property pass to the state.

* **Sec. 4.** AS 31.25.080(f) is amended to read:

(f) The corporation shall, to the maximum extent practicable without delaying the progress of developing **the** [AN] in-state natural gas pipeline project **described in AS 31.25.005(1)** and without causing the in-state natural gas pipeline project **described in AS 31.25.005(1)** to become a competing natural gas pipeline project for purposes of AS 43.90.440, coordinate with and accommodate the developers of a

large-diameter [IN-STATE] natural gas pipeline **project** by planning for the development and use of [COMMON] pipeline facilities from the North Slope to [THE LIVENGOD AREA OR TO ANOTHER POINT FROM WHICH A LARGE-DIAMETER IN-STATE NATURAL GAS PIPELINE MAY BE CONSTRUCTED SOUTH TO] tidewater in either the Prince William Sound or Cook Inlet area. **The corporation may use money appropriated to the large-diameter natural gas pipeline project fund created in AS 31.25.110 for the purposes described in this subsection and may not use money appropriated to the in-state natural gas pipeline fund created in AS 31.25.100 for the purposes described in this subsection** [IN THIS SUBSECTION, "LARGE-DIAMETER IN-STATE NATURAL GAS PIPELINE" MEANS A PIPELINE IN THE STATE WITH A DIAMETER OF 42 INCHES OR MORE].

* **Sec. 36.** AS 43.55.020(*l*) is amended to read:

(*l*) **For oil and gas produced on** [ON] and after January 1, 2014, **and before January 1, 2022,** in making settlement with the royalty owner for oil and gas that is taxable under AS 43.55.011, the producer may deduct the amount of the tax paid on taxable royalty oil and gas, or may deduct taxable royalty oil or gas equivalent in value at the time the tax becomes due to the amount of the tax paid. If the total deductions of installment payments of estimated tax for a calendar year exceed the actual tax for that calendar year, the producer shall, before April 1 of the following year, refund the excess to the royalty owner. Unless otherwise agreed between the producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on taxable royalty oil and gas for a calendar year, other than oil and gas the ownership or right to which constitutes a landowner's royalty interest, is considered to be the gross

value at the point of production of the taxable royalty oil and gas produced during the calendar year multiplied by a figure that is a quotient, in which

(1) the numerator is the producer's total tax liability under AS 43.55.011(e)(2) [AS 43.55.011(e)] for the calendar year of production; and

(2) the denominator is the total gross value at the point of production of the oil and gas taxable under AS 43.55.011(e) produced by the producer from all leases and properties in the state during the calendar year.

* **Sec. 37.** AS 43.55.020 is amended by adding a new subsection to read:

(m) For oil and gas produced on and after January 1, 2022, in making settlement with the royalty owner for oil and gas that is taxable under AS 43.55.011, the producer may deduct the amount of the tax paid on taxable royalty oil and gas, or may deduct taxable royalty oil or gas equivalent in value at the time the tax becomes due to the amount of the tax paid. If the total deductions of installment payments of estimated tax for a calendar year exceed the actual tax for that calendar year, the producer shall, before April 1 of the following year, refund the excess to the royalty owner. In making settlement with the royalty owner for gas that is taxable under AS 43.55.014, the producer may deduct the amount of the gas paid as in kind tax on taxable royalty gas or may deduct the gross value at the point of production of the gas paid as in-kind tax on taxable royalty gas. Unless otherwise agreed between the producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on taxable royalty oil for a calendar year, other than oil the ownership or right to which constitutes a landowner's royalty interest, is considered to be the gross value at the point of production of the taxable royalty oil produced during the calendar year multiplied by a figure that is a quotient, in which

(1) the numerator is the producer's total tax liability under AS 43.55.011(e)(3)(A) for the calendar year of production; and

(2) the denominator is the total gross value at the point of production of the oil taxable under AS 43.55.011(e) produced by the producer from all leases and properties in the state during the calendar year.

* **Sec. 38.** AS 43.55.030(a) is amended to read:

(a) A producer that produces oil or gas from a lease or property in the state

during a calendar year, whether or not any tax payment is due under AS 43.55.020(a) for that oil or gas, shall file with the department on March 31 of the following year a statement, under oath, in a form prescribed by the department, giving, with other information required, the following:

(1) a description of each lease or property from which oil or gas was produced, by name, legal description, lease number, or accounting codes assigned by the department;

(2) the names of the producer and, if different, the person paying the tax, if any;

(3) the gross amount of oil and the gross amount of gas produced from each lease or property, **separately identifying the gross amount of gas produced from each lease or property to which an effective election under AS 43.55.014(a) applies, the amount of gas delivered to the state under AS 43.55.014(b),** and the percentage of the gross amount of oil and gas owned by the producer;

(4) the gross value at the point of production of the oil and of the gas produced from each lease or property owned by the producer and the costs of transportation of the oil and gas;

(5) the name of the first purchaser and the price received for the oil and for the gas, unless relieved from this requirement in whole or in part by the department;

(6) the producer's qualified capital expenditures, as defined in AS 43.55.023, other lease expenditures under AS 43.55.165, and adjustments or other payments or credits under AS 43.55.170;

(7) the production tax values of the oil and gas under **AS 43.55.160(a) or of the oil under AS 43.55.160(h), as applicable** [AS 43.55.160];

(9) calculations showing the amounts, if any, that were or are due under AS 43.55.020(a) and interest on any underpayment or overpayment.

* **Sec. 39.** AS 43.55.160(a) is amended to read:

(a) **For oil and gas produced before January 1, 2022, except** [EXCEPT] as provided in (b), (f), and (g) of this section, for the purposes of

(1) AS 43.55.011(e)(1) and (2) [AS 43.55.011(e)], the annual production tax value of taxable oil, gas, or oil and gas produced during a calendar year in a category for which a separate annual production tax value is required to be calculated under this paragraph is the gross value at the point of production of that oil, gas, or oil and gas taxable under AS 43.55.011(e), less the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to the oil, gas, or oil and gas in that category produced by the producer during the calendar year, as adjusted under AS 43.55.170; a separate annual production tax value shall be calculated for

(F) oil and gas subject to AS 43.55.011(p) produced from leases or properties in the state;

(G) oil and gas produced from leases or properties in the state no part of which is north of 68 degrees North latitude, other than oil or gas described in (B), (C), (D), (E), or (F) of this paragraph;

(2) AS 43.55.011(g), for oil and gas produced before January 1, 2014,

the monthly production tax value of the taxable

(A) oil and gas produced during a month from leases or properties in the state that include land north of 68 degrees North latitude is the gross value at the point of production of the oil and gas taxable under AS 43.55.011(e) and produced by the producer from those leases or properties, less 1/12 of the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to the oil and gas produced by the producer from those leases or properties, as adjusted under AS 43.55.170; this subparagraph does not apply to gas subject to AS 43.55.011(o);

(B) oil and gas produced during a month from leases or properties in the state outside the Cook Inlet sedimentary basin, no part of which is north of 68 degrees North latitude, is the gross value at the point of production of the oil and gas taxable under AS 43.55.011(e) and produced by the producer from those leases or properties, less 1/12 of the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to the oil and gas produced by the producer from those leases or properties, as adjusted under AS 43.55.170; this subparagraph does not apply to gas subject to AS 43.55.011(o);

(C) oil produced during a month from a lease or property in the Cook Inlet sedimentary basin is the gross value at the point of production of the oil taxable under AS 43.55.011(e) and produced by the producer from that lease or property, less 1/12 of the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to the oil produced by the producer from that lease or property, as adjusted under AS 43.55.170;

(D) gas produced during a month from a lease or property in the Cook Inlet sedimentary basin is the gross value at the point of production of the gas taxable under AS 43.55.011(e) and produced by the producer from that lease or property, less 1/12 of the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to the gas produced by the producer from that lease or property, as adjusted under AS 43.55.170;

(E) gas produced during a month from a lease or property

outside the Cook Inlet sedimentary basin and used in the state is the gross value at the point of production of that gas taxable under AS 43.55.011(e) and produced by the producer from that lease or property, less 1/12 of the producer's lease expenditures under AS 43.55.165 for the calendar year applicable to that gas produced by the producer from that lease or property, as adjusted under AS 43.55.170.

* **Sec. 40.** AS 43.55.160(e) is amended to read:

(e) Any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that would otherwise be deductible by a producer in a calendar year but whose deduction would cause an annual production tax value calculated under (a)(1) or (h) of this section of taxable oil or gas produced during the calendar year to be less than zero may be used to establish a carried-forward annual loss under AS 43.55.023(b). However, the department shall provide by regulation a method to ensure that, for a period for which a producer's tax liability is limited by AS 43.55.011(j), (k), (o), or (p), any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that would otherwise be deductible by a producer for that period but whose deduction would cause a production tax value calculated under (a)(1)(C), (D), (E), or (F) of this section to be less than zero are accounted for as though the adjusted lease expenditures had first been used as deductions in calculating the production tax values of oil or gas subject to any of the limitations under AS 43.55.011(j), (k), (o), or (p) that have positive production tax values so as to reduce the tax liability calculated without regard to the limitation to the maximum amount provided for under the applicable provision of AS 43.55.011(j), (k), (o), or (p). Only the amount of those adjusted lease expenditures remaining after the accounting provided for under this subsection may be used to establish a carried-forward annual loss under AS 43.55.023(b). In this subsection, "producer" includes "explorer."

* **Sec. 41.** AS 43.55.160(f) is amended to read:

(f) On and after January 1, 2014, in the calculation of an annual production tax value of a producer under (a)(1)(A) or (h)(1) [(a)(1)] of this section, the gross value at the point of production of oil or gas produced from a lease or property north of 68 degrees North latitude meeting one or more of the following criteria is reduced by 20

percent: (1) the oil or gas is produced from a lease or property that does not contain a lease that was within a unit on January 1, 2003; (2) the oil or gas is produced from a participating area established after December 31, 2011, that is within a unit formed under AS 38.05.180(p) before January 1, 2003, if the participating area does not contain a reservoir that had previously been in a participating area established before December 31, 2011; (3) the oil or gas is produced from acreage that was added to an existing participating area by the Department of Natural Resources on and after January 1, 2014, and the producer demonstrates to the department that the volume of oil or gas produced is from acreage added to an existing participating area. This subsection does not apply to gas produced before 2022 that is used in the state **or to gas produced on and after January 1, 2022**. A reduction under this subsection may not reduce the gross value at the point of production below zero. In this subsection, "participating area" means a reservoir or portion of a reservoir producing or contributing to production as approved by the Department of Natural Resources.

* **Sec. 42.** AS 43.55.160(g) is amended to read:

(g) On and after January 1, 2014, in addition to the reduction under (f) of this section, in the calculation of an annual production tax value of a producer under **(a)(1)(A) or (h)(1)** [(a)(1)] of this section, the gross value at the point of production of oil or gas produced from a lease or property **north of 68 degrees North latitude** that does not contain a lease that was within a unit on January 1, 2003, is reduced by 10 percent if the oil or gas is produced from a unit made up solely of leases that have a royalty share of more than 12.5 percent in amount or value of the production removed or sold from the lease as determined under AS 38.05.180(f). This subsection does not apply if the royalty obligation for one or more of the leases in the unit has been reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar year for which the annual production tax value is calculated. This subsection does not apply to gas produced before 2022 that is used in the state **or to gas produced on and after January 1, 2022**. A reduction under this subsection may not reduce the gross value at the point of production below zero.

* **Sec. 43.** AS 43.55.160 is amended by adding a new subsection to read:

(1) from leases or properties in the state that include land north of 68 degrees North latitude is the gross value at the point of production of that oil, less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil or gas deposits located in the state north of 68 degrees North latitude or located in leases or properties in the state that include land north of 68 degrees North latitude, as adjusted under AS 43.55.170;

(2) before or during the last calendar year under AS 43.55.024(b) for which the producer could take a tax credit under AS 43.55.024(a), from leases or properties in the state outside the Cook Inlet sedimentary basin, no part of which is north of 68 degrees North latitude, other than leases or properties subject to AS 43.55.011(p), is the gross value at the point of production of that oil, less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil or gas deposits located in the state outside the Cook Inlet sedimentary basin and south of 68 degrees North latitude, other than oil or gas deposits located in a lease or property that includes land north of 68 degrees North latitude or that is subject to AS 43.55.011(p) or, before January 1, 2027, from which commercial production has not begun, as adjusted under AS 43.55.170;

(3) from leases or properties subject to AS 43.55.011(p) is the gross value at the point of production of that oil, less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil or gas deposits located in leases or properties subject to AS 43.55.011(p) or, before January 1, 2027, located in leases or properties in the state outside the Cook Inlet sedimentary basin, no part of which is north of 68 degrees North latitude from which commercial production has not begun, as adjusted under AS 43.55.170;

(4) from leases or properties in the state no part of which is north of 68 degrees North latitude, other than leases or properties subject to (2) or (3) of this subsection, is the gross value at the point of production of that oil less the producer's lease expenditures under AS 43.55.165 for the calendar year incurred to explore for,

1 develop, or produce oil or gas deposits located in the state south of 68 degrees North
2 latitude, other than oil or gas deposits located in a lease or property in the state that
3 includes land north of 68 degrees North latitude, and excluding lease expenditures that
4 are deductible under (2) or (3) of this subsection or would be deductible under (2) or
5 (3) of this subsection if not prohibited by (b) of this section, as adjusted under
6 AS 43.55.170.

7 * **Sec. 44.** AS 43.55.165(e) is amended to read:

8 (e) For purposes of this section, lease expenditures do not include

9 (1) depreciation, depletion, or amortization;

10 (2) oil or gas royalty payments, production payments, lease profit
11 shares, or other payments or distributions of a share of oil or gas production, profit, or
12 revenue, except that a producer's lease expenditures applicable to oil and gas produced
13 from a lease issued under AS 38.05.180(f)(3)(B), (D), or (E) include the share of net
14 profit paid to the state under that lease;

15 (3) taxes based on or measured by net income;

16 (4) interest or other financing charges or costs of raising equity or debt
17 capital;

18 (5) acquisition costs for a lease or property or exploration license;

19 (6) costs arising from fraud, wilful misconduct, gross negligence,
20 violation of law, or failure to comply with an obligation under a lease, permit, or
21 license issued by the state or federal government;

22 (7) fines or penalties imposed by law;

23 (8) costs of arbitration, litigation, or other dispute resolution activities
24 that involve the state or concern the rights or obligations among owners of interests in,
25 or rights to production from, one or more leases or properties or a unit;

26 (9) costs incurred in organizing a partnership, joint venture, or other
27 business entity or arrangement;

28 (10) amounts paid to indemnify the state; the exclusion provided by
29 this paragraph does not apply to the costs of obtaining insurance or a surety bond from
30 a third-party insurer or surety;

31 (11) surcharges levied under AS 43.55.201 or 43.55.300;

(12) an expenditure otherwise deductible under (b) of this section that is a result of an internal transfer, a transaction with an affiliate, or a transaction between related parties, or is otherwise not an arm's length transaction, unless the producer establishes to the satisfaction of the department that the amount of the expenditure does not exceed the fair market value of the expenditure;

(13) an expenditure incurred to purchase an interest in any corporation, partnership, limited liability company, business trust, or any other business entity, whether or not the transaction is treated as an asset sale for federal income tax purposes;

(14) a tax levied under AS 43.55.011 or 43.55.014;

(15) costs incurred for dismantlement, removal, surrender, or abandonment of a facility, pipeline, well pad, platform, or other structure, or for the restoration of a lease, field, unit, area, tract of land, body of water, or right-of-way in conjunction with dismantlement, removal, surrender, or abandonment; a cost is not excluded under this paragraph if the dismantlement, removal, surrender, or abandonment for which the cost is incurred is undertaken for the purpose of replacing, renovating, or improving the facility, pipeline, well pad, platform, or other structure;

(16) costs incurred for containment, control, cleanup, or removal in connection with any unpermitted release of oil or a hazardous substance and any liability for damages imposed on the producer or explorer for that unpermitted release; this paragraph does not apply to the cost of developing and maintaining an oil discharge prevention and contingency plan under AS 46.04.030;

(17) costs incurred to satisfy a work commitment under an exploration license under AS 38.05.132;

(18) that portion of expenditures, that would otherwise be qualified capital expenditures, as defined in AS 43.55.023, incurred during a calendar year that are less than the product of \$0.30 multiplied by the total taxable production from each lease or property, in BTU equivalent barrels, during that calendar year, except that, when a portion of a calendar year is subject to this provision, the expenditures and volumes shall be prorated within that calendar year;

(19) costs incurred for repair, replacement, or deferred maintenance of

1 a facility, a pipeline, a structure, or equipment, other than a well, that results in or is
2 undertaken in response to a failure, problem, or event that results in an unscheduled
3 interruption of, or reduction in the rate of, oil or gas production; or costs incurred for
4 repair, replacement, or deferred maintenance of a facility, a pipeline, a structure, or
5 equipment, other than a well, that is undertaken in response to, or is otherwise
6 associated with, an unpermitted release of a hazardous substance or of gas; however,
7 costs under this paragraph that would otherwise constitute lease expenditures under (a)
8 and (b) of this section may be treated as lease expenditures if the department
9 determines that the repair or replacement is solely necessitated by an act of war, by an
10 unanticipated grave natural disaster or other natural phenomenon of an exceptional,
11 inevitable, and irresistible character, the effects of which could not have been
12 prevented or avoided by the exercise of due care or foresight, or by an intentional or
13 negligent act or omission of a third party, other than a party or its agents in privity of
14 contract with, or employed by, the producer or an operator acting for the producer, but
15 only if the producer or operator, as applicable, exercised due care in operating and
16 maintaining the facility, pipeline, structure, or equipment, and took reasonable
17 precautions against the act or omission of the third party and against the consequences
18 of the act or omission; in this paragraph,

19 (A) "costs incurred for repair, replacement, or deferred
20 maintenance of a facility, a pipeline, a structure, or equipment" includes costs
21 to dismantle and remove the facility, pipeline, structure, or equipment that is
22 being replaced;

23 (B) "hazardous substance" has the meaning given in
24 AS 46.03.826;

25 (C) "replacement" includes renovation or improvement;

26 (20) costs incurred to construct, acquire, or operate a refinery or crude
27 oil topping plant, regardless of whether the products of the refinery or topping plant
28 are used in oil or gas exploration, development, or production operations; however, if
29 a producer owns a refinery or crude oil topping plant that is located on or near the
30 premises of the producer's lease or property in the state and that processes the
31 producer's oil produced from that lease or property into a product that the producer

uses in the operation of the lease or property in drilling for or producing oil or gas, the producer's lease expenditures include the amount calculated by subtracting from the fair market value of the product used the prevailing value, as determined under AS 43.55.020(f), of the oil that is processed;

(21) costs of lobbying, public relations, public relations advertising, or policy advocacy.

* **Sec. 45.** AS 43.55.900(10) is amended to read:

(10) "gas processing plant" means a facility that

(A) extracts and recovers liquid hydrocarbons from a gaseous mixture of hydrocarbons by gas processing; and

(B) is located upstream of the inlet of any pipeline transporting gas to a gas treatment plant and upstream of the inlet of any gas pipeline system transporting gas to a market;

* **Sec. 46.** AS 43.55.900(20) is amended to read:

(20) "point of production" means

(A) for oil, the automatic custody transfer meter or device through which the oil enters into the facilities of a carrier pipeline or other transportation carrier in a condition of pipeline quality; in the absence of an automatic custody transfer meter or device, "point of production" means the mechanism or device to measure the quantity of oil that has been approved by the department for that purpose, through which the oil is tendered and accepted in a condition of pipeline quality into the facilities of a carrier pipeline or other transportation carrier or into a field topping plant;

(B) for gas [, OTHER THAN GAS DESCRIBED IN (C) OF THIS PARAGRAPH,] that is

(i) not subjected to or recovered by mechanical separation or run through a gas processing plant, the furthest upstream of the first point where the gas is accurately metered, the inlet of any pipeline transporting the gas to a gas treatment plant, or the inlet of any gas pipeline system transporting gas to a market;

(ii) subjected to or recovered by mechanical separation

but not run through a gas processing plant, the furthest upstream of the first point where the gas is accurately metered after completion of mechanical separation, the inlet of any pipeline transporting the gas to a gas treatment plant, or the inlet of any gas pipeline system transporting gas to a market;

(iii) run through a gas processing plant, the furthest upstream of the first point where the gas is accurately metered downstream of the plant, the inlet of any pipeline transporting the gas to a gas treatment plant, or the inlet of any gas pipeline system transporting gas to a market;

[(C) FOR GAS RUN THROUGH AN INTEGRATED GAS PROCESSING PLANT AND GAS TREATMENT FACILITY THAT DOES NOT ACCURATELY METER THE GAS AFTER THE GAS PROCESSING AND BEFORE THE GAS TREATMENT, THE FIRST POINT WHERE GAS PROCESSING IS COMPLETED OR WHERE GAS TREATMENT BEGINS, WHICHEVER IS FURTHER UPSTREAM;]

* **Sec. 47.** AS 43.55.900 is amended by adding a new paragraph to read:

(25) "gas treatment plant" means a facility that performs gas treatment, regardless of whether the facility also performs gas processing.

* **Sec. 48.** AS 43.98.030(c) is amended to read:

(c) A taxpayer acquiring a transferable tax credit certificate may use the credit or a portion of the credit to offset taxes imposed under AS 21.09.210, AS 21.66.110, AS 43.20, AS 43.55.011 [AS 43.55], AS 43.56, AS 43.65, AS 43.75, and AS 43.77. Except as provided in (e) of this section, any portion of the credit not used may be used at a later period or transferred under (b) of this section.

* **Sec. 49.** The uncoded law of the State of Alaska is amended by adding a new section to read:

DEVELOPMENT OF A PLAN FOR RESIDENTS TO PARTICIPATE IN THE OWNERSHIP OF A NORTH SLOPE NATURAL GAS PIPELINE. (a) At the time the commissioner of natural resources submits the first contract to the legislature for approval under AS 38.05.020(b)(11), enacted by sec. 11 of this Act, the commissioner of revenue shall

1 present a plan and suggested legislation to allow a resident of the state to participate as a co-
2 owner in a North Slope natural gas pipeline. The plan must include the recommendations of
3 the commissioner as to

4 (1) the means by which a resident may invest in the North Slope natural gas
5 pipeline that may include providing an option for a resident to designate an amount of a
6 permanent fund dividend to be deducted for the investment;

7 (2) whether the ownership interest in a North Slope natural gas pipeline should
8 be acquired from the portion of a North Slope natural gas pipeline acquired by the state,
9 through the purchase of stock in a publicly traded corporation that invests in a North Slope
10 natural gas pipeline, or some other means;

11 (3) the means for providing notice to a resident receiving an ownership
12 interest that explains the type of ownership interest and the rights and obligations related to
13 that ownership interest;

14 (4) whether the ownership interest received by a resident may be transferred or
15 assigned to another person and the means for transferring the interest;

16 (5) the means by which the proportional share of a dividend or other income
17 may be distributed to a resident or transferee of an interest if a resident receives an ownership
18 interest acquired by the state in a North Slope natural gas pipeline and the state receives a
19 dividend or other income from its ownership interest, and whether the payment should be
20 subject to interest if not timely distributed;

21 (6) the means by which the commissioner may identify a publicly traded
22 corporation that has an ownership interest in a North Slope natural gas pipeline that is subject
23 to investment by an individual under the proposed plan; and

24 (7) the means by which an individual may qualify as a resident for purposes of
25 investing in an ownership interest.

26 (b) In this section, "North Slope natural gas pipeline" means a natural gas pipeline
27 project that transports natural gas produced in the state north of 68 degrees North latitude to a
28 market in the state or to tidewater for export from the state including a facility in the state for
29 liquefying natural gas for transport.

30 * **Sec. 50.** The uncodified law of the State of Alaska is amended by adding a new section to
