*The comparative national average of six-year graduation rates for less selective CSRDE Institutions is 38.2% (2011-12 CSRDE Retention Report, Center for Institutional Data Exchange, University of Oklahoma Outreach).

Note: The graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. The university cohorts are determined based on student class standing, full-time status, and degree combination at the university level.
