Sen. Fred Dyson; Sen. Click Bishop

Subject: Please accept this letter in support of HB77.

Dear Senators:

Please accept this letter in support of HB77.

Our family owns and operates a placer mine in the Interior of Alaska, and if HB77 does not pass, this can tie up the permitting process to a worse extent than it already is—in turn, compromising our livelihood.

This bill will streamline the permitting process so family operations like ours can stay in business. HB77 contains many elements that are good for Alaska's economy while protecting our environment, including the unnecessarily controversial water rights aspect.

I urge you to pass this bill as written, and ensure our permitting process is transparent, predictable, and is truly what is best for Alaska. Thank you for your consideration in this matter.

Ben Birch

Renee,
Please add my name to my name to petition calling for swift action on this legislation.

CSHB 77 is an omnibus bill that seeks to improve the Department of Natural Resources (DNR) timeliness and efficiency in issuing land and water use authorizations. The bill focuses on agency process and does not seek changes in environmental standards or laws protecting fish and wildlife habitat. Nor does the bill make changes to the law governing water rights.

Subject: RE: Plea From Senator Giessel

Rebecca,

You may put my name on the petition. I already sent her an e-mail yesterday. Do you need another from me?

Robert J. Dickson

Rebecca,

Definitely yes.

I am in support of the HB77.

Regards,
Maynard

She reached out to me last night and said she has 800 emails on HB 77 – Land Use and Water Rights – with 2/3 being against the bill. We sent out the petition for signatures yesterday and are at 50 – please respond to this with a “yes” if you support HB 77 and will let us list your name on the petition. We’d like to have 100 by the end of the day.

Thanks!!

Renee Limoge
