Re: H.B. 336

Dear legislators,

My name is Nyanuer (Niner) Bidit, and I am writing today to voice support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want other students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Students who walk home mostly pass the liquor store. If the school tells us to not do drugs and drinking, then why are we surrounded by that type

is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students-the future of Alaska! It must be moved before students get hurt by drunk people.

Sincerely,

Nyanuer Bidit

March 21, 2014

Dear Legislators,

My name is Alyshia, and I am writing in support of H.B. 3512, which would prevent the issuing of liquor licenses to establishments within 400' of a school. It's a Clark Middle School suburb. I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and we have to see and deal with the effects of alcoholism everyday. People are hitting, sleeping, drinking, and urinating of the liquor store. Sometimes the liquor store are confrontational and follow us around. It's especially frightening during the winter months. When it's dark outside and students have to walk pass the store, harassed for money, and talk to the inmates. This is not what students should have to see on their way to and from school everyday. We have been granted a safe learning environment and that includes to and from school.

A specific reason I support this is because I feel unsafe and scared walking home. As an everyday walker, my friends and I already have fears like being kidnapped, splashed by cars and puddles, or being hit by cars, it only makes things worse having to deal with people under the influence of alcohol. I feel like I am in danger because everyday I have to walk past both liquor stores outside my school. I have been followed by drunk people twice and many times I have witnessed fights or worse being done by drunk people.

By increasing the distance between the schools and liquor stores, students do not have to experience what drunk students currently, the distance is only 200ft away and places the places the option is unfair to us and no student shall have to fear going to school. If the distance is increased, it will, if will lower the safety risk and number of options caused by alcoholism. I hope you support H.B. because it's best for students & the future Alaska

Sincerely,

Magnus Patterson

Alaska state legislature

3/26/2014

Dear legislator(s),

My name is Michael Anthony Maeva and I'm writing in support of H.B., which would prevent the issuing of liquor licenses to establishments within 100 feet of school. As a Clark Middle School Scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly

across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping/walking, and urinating outside of the liquor store. Some times, the liquor store owners are confrontational and follow us around. It is especially frightening during the winter months when it's dark outside and students have to walk past the store (not crossed for money) and talk to the inmates.

This is what students should have seen on their way to school each day. We have been promised a safe learning environment and that includes walking from our to school

The liquor store could affect anything in life itself, including children. Personally, I have never been asked to drink beer, liquor, wine, tequila, vodka,

Margarita, of any such alcohol, but I've seen what it's capable of. It's ruining other people's lives, destroying other people's lives and such.

By increasing the distance between the liquor stores, students do not have to experience what Clark Students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us as no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it's what's best for student - the future of Alaska.

Sincerely,

Michael Anthony Maeva

Dear Legislators,

My name is Lenny Ureña and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customer are confrontation and follow us around.

It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to prostitutes. This is not what students should have to see on their way to and from school each day. We have promised a safe learning environment and that includes walking to and from school. We are being harassed by prostitutes.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no

Student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B.336 because it is best for students - the future of Alaska.

Sincerely,

Lenny Ureña

Dear legislators,

My name is Miguel Chapra and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening especially in the winter when it's dark when students have to walk past the store. Harassed for money and talk to the teenagers. This is not what students should have to see on their way to and from school each day when we have been promised a safe learning environment and that includes walking to and from school.

Alcoholism is a disease and causes people to become angry and lose control. This is what we have to see and never walking to and from school. So why would the govern not do this.

By increasing the distance between  
the schools and liquor stores students  
do not have to experience what Clark  
Students currently see and deals  
with. currently, the distance is only  
200 feet away any place the problem  
in our face daily. This problem unfair  
to us and not Students should have  
to fair going to school.

March 21, 2014

Dear Legislators,

My name is Mee Yang and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Having two liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of us, driving drunk, sleeping on the sidewalks, and fighting with other inebriates.

It affects us as students to have to see and be exposed to those bad behaviors all the time. Students who are walking to and from school are afraid to set foot out at the beginning and end of the day because they don't want to see those behaviors.

By increasing the distance between the school and liquor store, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students - the future of Alaska!

Sincerely,  
Mei Yang

Dear Legislators,

My name is Lee Xiong and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

I am afraid to walk to and from school each day. Because I'm scared that maybe people might be there on the sidewalk drinking beer or get crazy. Some people are mean they might kidnap you or they might kill you. There are a lot of people out there that really want to kidnap you but you don't know who are they. This is why I don't like walking to and from school.

By increasing the distance between the school and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 3362, because it is best for students, the future of Alaska!

Sincerely,

Taylor

Dear Legislators,

My name is Kyleigh Hammonds and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a learning environment and that includes walking to and from school.

Having two liquor stores in my neighborhood and near my school affects me because it causes multiple problems such as people drinking in front of us, Driving Drunk, Sleeping on the Sidewalks, and fighting with other inebriates. Also, people who drink harass innocent people, because they think drinking is cool. People who drink are only hurt themselves.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark Students see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for student and the future of Alaska!

Sincerely,

Kyleigh Hammonds.

Dear Legislators,

My name is Pa Xiong and I am writing in support of H.B. 336, which would prevent the issuing of liquor licences to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk past the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way home and to school each day. We have been promised a safe learning environment and that includes walking to and from school.

We are being harassed by the inebriates who are constantly asking for spare change and money. Sometimes, even if you don't

have money to spare them they will follow you home. They might end up abusing us students who won't give them money! And some inebriates might not beg for money but might just walk past you and steal your money or abuse you out of nowhere.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism.

I hope you support H.B. 336, because it is best for students—the future of Alaska!

sincerely,

March 21, 2014

Dear Legislators,

My name is Derek Murcell and I am writing in support of H.B. 336 which would prevent the issuing of liquor licenses to establishments within 400feet of a school. As a Clark Middle School Scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism everyday. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money and talk to the individuals. This is not what students should have to see on their way to and from school each day. We have been granted a safe learning environment and that includes walking to and from school. Liquor, I personally don't like it to be legalized, it is the leading cause of death. Alcohol increases violence and damage every day. Alcohol also has the most casualties each year.

I am afraid to walk to and from school each day. I feel that to many people intoxicated around the school will put the school itself in danger. People under the influence tend to do "ill minded" things while intoxicated.

By increasing the distance between the Schools and liquor stores, students do not have to experience what Clark Students currently see and deal with. Currently, the distance is only 200 ft away and places the problem in our face daily. This problem is unfair to us as no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope support H.B. 336, because it is best for students - the future of Aboe!

Dear Legislators,

My name is Savanna Ahlalook and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Alcoholism is a disease and causes people to become angry and use profanity. This is what we have to see and hear walking to and from school. I hate to see this happen to peers from school and I want them

to feel safe when they come to school and go home from school. When people are intoxicated their brains don't know what to do. It causes them to do crazy acts that cannot be undone. These acts happen every year to students at schools close to the liquor stores. Some students also have to see drunken people do unsanitary things. We students want to feel safe coming to school and going home. With a closer-by liquor store we cannot feel the safety we are supposed to hear. Students who come to school may feel scared because of the hearings they listen to in the news or from others. I don't want anything to happen to me on the way to school or going home from school.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with.

Sincerely,

Savanna Ahlalook

March 21, 2014

Dear Legislators,

My name is Kira Noggle and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk pass the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school. Having 2 liquor store near my school has affected me in bad ways sometimes. One day while I was walking pass the liquor store, a man who was drunk kept whistling at me and began following me home; it was a really scary experience and I don't want it to happen to anyone else. We should be afforded the same

opportunities to walk in a safe neighborhood as other students. They don't experience what Clark students do.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students - the future of Alaska!

Dear Legislators,

My name is Stephen George and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of schools. As a Clark middle school student, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and partying outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students walk past the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised safe learning environments and that includes walking to and from school.

There are two liquor stores in our neighborhood and they have affected kids badly. Kids have to see angry drunk people fighting when they go to school drunk because some over ask and yell at them for money. The neighborhood is really unsafe for kids with drunk and angry people. That is why I think there should not be liquor stores on Clark.

By increasing the distance between the school and liquor stores, students do not have to experience what Clark students currently see and deal with.

Currently, the distance is only 200 feet away and places the problem in our daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 368 because it is best students - the future of Alaska.

Alaska State Legislature  
Capitol Building

March 21, 2014

Dear Legislators,

My name is Ksayara Seppala and I am writing in support of H.B 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and my peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are vomiting, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it's dark outside and students have to walk pass the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Having two liquor stores located in my neighborhood has effected me because there are always people in the streets asking me for my money. I do not think it's right for other people to be asking me for my money. I think they shouldn't be doing

that because it scares us students. It can  
mainly scare individuals that are by themselves.

By increasing the distance between the schools  
and liquor stores, students do not have to experience  
what Clark students currently have to see and  
deal with. Currently, the distance is only 200  
feet away one places the problem in our face  
daily. This problem is unfair to us and no  
student should have to fear going to school.

If the distance is increased, it will lower the  
safety risk and number of problems caused by  
alcoholism. I hope you support H.B. 336,  
because it is best for students - the future of  
Alaska!

Sincerely,

Ksaydra Suganna

Re: H.B. 336

Dear Legislators,

My name is Alexandra Chris and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 100 feet of a school. As a student, I want students to feel safe going thru symptoms of alcoholism everyday. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Having 2 liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of us, driving drunk, sleeping on the sidewalks, and fighting with other inebriates. Sometimes, when ill be walking with my friends, i would see a group of homeless drunk people and a couple fighting. I dont think my parents or any other childs parents would want them to see drunk people fighting. Drunk people fighting could be dangerous to young ones.

When i see drunk people fighting or walking around, and when im walking i feel uncomfortable because, i never know what could happen.

By increasing the distance between Schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 200 feet and it allows for situations like the one at Clark Middle Schools, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 336, like i do.

Sincerely,

Alexandra Chris

Re: H.B. 336

Dear Legislator,

My name is Kristopher Rivera and I am writing today to voice my support for H.B. 336, which would require that no future Liquor Licenses be issued for Establishments within 400 feet of a school. As a Student, I want Student to feel safe going to our neighborhood school. Instead, with a Liquor store located directly across the street, we see the symptoms of alcoholism every day.

There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

We should be afforded the same opportunities to walk in a safe neighborhood. Most of everyone has seen a drunk in the sidewalk or close to home, in other places they have no Drunks any more. I think it completely on fair #1.

When Clark Student walk it isn't safe, but in other Neighborhood it's completely safe. I also bring this to your notice that Student are being talk to by drunks.

By increasing the distance between schools and liquor stores, we can prevent future student from experiencing this problem. Currently the distance is only 200 feet and it allows for situations like the one at Clark Middle School where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students and neighborhoods safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and help our city recognize the need for treatment and rehabilitation. I hope you support H.B. 336, like I do.

Sincerely,  
Christopher Rivera

H.B. 336

My name is April Yang and I am writing today to voice my support for H.B.336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism everyday. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of nurturing environment.

Having 2 liquor stores in the neighborhood near our school causes multiple problems such as drinking in front of us, driving drunk, sleeping on the

Sidewalks, and fighting with other inebriates.

Its dangerous for student to walk around seeing these things and being in danger. For an example, a student who just got out of school was walking home. She needed to cross the streets, a car with a drunk person inside can actually crash into her while she was crossing. Or the car can just go straight at her while she was waiting for the walking sign. This situation can make everyone see that they shouldn't come to this school because its a danger zone to everyone. Another example, while I was walking home from school. An old man was very drunk and walked towards me, but instead I turned back and went another way.

During this time I was so afraid that something might happen to me, so I never walked on that street ever again.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 200 feet and it allows for situations like the one at Clark Middle school, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk.

I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 336, like I do.

Sincerely,  
April Yang

Re: H.B. 336

Dear Legislators,

My name is Shymara Jones and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in the bushes. This is not what students should see on their way in and out of a nurturing environment.

Having 2 liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of us, driving drunk, sleeping on the sidewalk, and fighting with others. Inebriates.

Drunk driving is a crime, yet people still drive under the influence. Buzzed and drunk driving are the same things. When you drink you are impairing yourself.

hang out with the wrong crowd. Usually that wrong crowd drinks, or smokes, or does drugs. Drunk people sleeping on the sidewalk, peeing in the bushes, fighting with others inebriates, and driving under the influence is a bad influence to those who want to be successful and to those who don't.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing these problems. Currently, the distance is only 200 feet and it allows for situations like the one at Clark Middle School, where liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognized the need for treatment and rehabilitation. I hope you support H.B.-336, like I do.

RE: H.B. 336

My name is Bill Hang and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishment within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day. There are frequently people loitering outside the liquor store sleeping, drinking, and peeing in the bushes. This is not what students should see on their way in and out of a nurturing environment.

I am afraid to walk to and from school each day because when I walk home I see the liquor store across the street. With a liquor store across the street I feel unsafe and I think other students would feel the same way as I do. Many students like me can get harassed or even get kidnaped.

Many of us students walk home during the summer time and many of us have to cross the street to get home from school. Specifically because how many students have to leave the school grounds at 3:00pm. With 2 liquor stores around our school what would students do if they get harassed by inebriates who constantly asking for space change and money. We should be afforded the same opportunities to walk in a safe neighborhood as other students.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 100 feet and it allows for situations like the one at Clark Middle School, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for the amendment and rehabilitation. I hope you support H.B. 336, like I do.

Sincerely, Bill Nancy

Re: H.B. 336

Dear Legislators,

My name is now and I am writing today to voice my support for H.B. 336, which would require that no future liquor licensed be issued for establishments within 400 feet of a school. As a student I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism everyday.

I am afraid of how fear for students that walk to school everyday, because they might get hurt by a person whom use alcohol. I mention this because I have seen students walking to school and get hurt. Even though I ride to school, it is mostly dark outside in the winter and I see students walk to school in the dark, which is not safe for them.

By increasing the distance between

schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 200 feet and it allows for situations like the one at Olars Middle School, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 326, like I do.

Sincerely,

Tan Wang

Re: H.B. 336

Dear Legislators,

My name is Pa Xiong and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism everyday. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Having two liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of us, driving drunk, sleeping on the sidewalks, and fighting with other inebriates. For example, if I were to walk home from school, and there is someone who's drunk driving. That person's coming towards me with her/his car and runs me over, wouldn't that cause a huge commotion? If that happens, I never, ever want to live in another example is in

alcohol in front of us and walks right in front of me and my friend. Asks us for money or says something threatening, we may get scared. I think it would be better if we'd get to walk home in a safe way.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing these problems. Currently, the distance is only 200 feet and it allows for situations like the one at Clark Middle School, where a liquor store is directly across the street from this school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk. I think that is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 3360, like I do.

Sincerely,

Re: H.B. 336

Dear Legislators,

My name is Daughli Mowat and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want us to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what we students should see on their way in and out of a nurturing environment.

We should be afforded the same opportunities to walk in a safe neighborhood as other students. For instance, my friend who lives in California, across his school, there is no liquor store near it. It's just a clean neighborhood with no liquor.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 200 feet and it allows for situations like one at Clark Middle School, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 386, like I do.

Re: H.B. 336

Dear legislators,

My name is Diego Gonzalez and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street we see the symptoms of alcoholism every day. There are frequently people loitering outside of the liquor store, sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Having 2 liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of us, driving drunk, sleeping on the sidewalks, and fighting with other inebriates. They might also want to do something illegal. Also, they might steal and go up to students and say something weird to them. Kids should be safe and if you move liquor stores to another place, students will be safe.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 200 feet and it allows for situations like one at Clark Middle school, where a liquor store is directly across the street from the school. If this distance is increased, we can at least lower the likelihood that students' and neighborhoods' safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support H.B. 336, like I do.

Sincerely,

Diego Gonzalez-Castro

Re: H.B. 336

Dear Legislators,

My name is Angel Ancheta and I am writing today to voice my support for H.B. 336, which would require that no future liquor licences be issued for establishments within 400 feet of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

I am afraid to walk to and from school each day because before I moved here my friend told me to never walk alone from Clark Middle School to my house. He said that there are a lot of homeless people who are scary because they are drunk. Also, he told me that there's a homeless person who keeps pushing him off the side walks. In my own personal experience I never really walk from Clark to my house because while driving sometimes I see people sleeping anywhere with liquor in their hands which scares me because they might hurt other people because they're out of control when they drink too much.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 400 feet and it allows for situations like the one at Clark Middle School, where liquor store is directly across the street from the school. If this distance is increased, we can all rest lower the likelihood that students and neighborhoods safety will be at risk.

I think this is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and rehabilitation. I hope you support HB 336, like I do.

Sincerely,

Sandita

Dear Legislator

3/21/14

My name is Tanning Howard and I am writing today to voice my support for H.B. 336, which would require that no future liquor licenses be issued for establishment within 400 ft of the school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street we see the symptoms of alcoholism everyday. There are frequently people loitering outside of the liquor store sleeping, drinking, and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Well what I see scares the crap out of me. I don't like seeing drunk people fighting, passed out somewhere, doing something they will regret in the future no I don't like it at all but having two liquor stores but the school was stupid what if someone got so drunk came to the school drunk and does something like start shooting and we don't know what could really happen and me thinking bout it scares the life out of me I've never been this scared in my entire life.

By increasing distance between Schools and liquor stores, we can prevent future students from experiencing this problem. Currently, the distance is only 300ft and it allows for situations like the one at Clark Middle School, where a liquor store is directly across the street from the school. If this distance increases, we can at least lower likelihood that student's and neighborhoods safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping our city the need for treatment and rehabilitation. I hope you support HB 336, like I do.

Re: H.B. 336

Dear Legislators,

My name is Henry Thibault and I am writing today to voice my support for H.B. 336 which would require that no future liquor licenses be issued for establishments within 400 feet of a school. As a student I want my fellow students to feel safe going to our neighborhood schools. Instead, with a liquor store located directly across the street, we see the symptoms of alcoholism every day.

The old people loitering outside of the liquor store sleeping, drinking and peeing in bushes. This is not what students should see on their way in and out of a nurturing environment.

Alcoholism is a disease and causes people to become angry and use profanity. This is what we have to see and hear walking to and from school. But by having two liquor stores in the neighborhood near our school causes multiple problems such as people drinking in front of bus stops while driving, sleeping on the sidewalks, and fighting with other individuals. We should be afforded the same opportunity to within a safe neighborhood as the other students.

By increasing the distance between schools and liquor stores we can prevent future students from experiencing this problem. Currently the distance is only 200 feet and it allows for situations like the one at Clark Middle School where a liquor store is directly across the street from the school. If this distance is increased we can at least lower the likelihood that students and neighborhoods safety will be at risk. I think that is a great step towards addressing the problems caused by alcoholism and helping our city recognize the need for treatment and prevention. I hope you support H.B. 581 like I do.

A.F. H.B. 336

Dear Legislators,

My name is Wesley Hamilton and I am writing today to voice my support for H.B.-336, which would require that no Future liquor licenses be issued for establishments within 400 FEET of a school. As a student, I want students to feel safe going to our neighborhood school. Instead, with a liquor store located directly across the street, we see the ~~symptoms~~ symptoms of alcoholism everyday. There are people frequently loitering outside of the liquor, sleeping, drinking, and peeing in bushes. This is not what students should see on their way in & out of a nurturing environment.

Having two liquor stores in the neighborhood near our school causes multiple problems, such as, people drinking in front of us, driving drunk, sleeping on the sidewalks, and fighting with other residents.

By increasing the distance between schools and liquor stores, we can prevent future students from experiencing this problem. Currently the distance is ONLY 100 feet and it allows for situations like the one at Clark Middle School where a liquor store is right across the street! If this distance is increased, we can at least lower the likelihood that students and neighbors' safety will be at risk. I think that this is a great step towards addressing the problems caused by alcoholism and helping society recognize the need for treatment and rehabilitation. I hope you support H.B. 736, like I do.

Sincerely,

Wesley Hanmer
